A SUGGESTION.

During the last week not only the Freshman but many visitors inspected the facilities of Technology. We are sorry to say that the state of the basements and other rooms are in a disgraceful condition. We must impress upon them as being indicative of rather slovenly practices on the part of the undergraduates.

The hollering in the halls has been inexcusable especially unsightly damping during the last few weeks. A few days ago the Institute Committee drew up regulations limiting the dimensions of the posters advertising the different societies' meetings. We understand that at present there is no consequence in charge of this matter, but it might be desirable for the Institute Committee to appoint, at the end of the present year, a number of Juniors who could attend to the boards during the first week of the next school year.

This suggestion might also be started offering a prize to the society having the neatest collection of posters during the coming year.

We have so much blesseed interest in the technology at present that it is justifiable in the kindest interests of all of us to maintain a proper standard of behavior among our associates.

A GIFT.

Through the kindness of a lady friend those Technology men who are interested in reading philosophical works or literature which is not possible to get in the very latest treatises on economics.

We might mention the facts of this instance to show what interest one friends take in our welfare.

The donor mentioned above is a person who will be considered might be better used on educational work than funds. As a result a substantial number of trustees were appointed to distribute the fund, and it is on this account that Technology is the subject of this letter. We hope that the men are being able to investigate the very interesting matter of social and economical outlooks.

Our thanks go out to this anonymous donor for her extreme kindness.

A NEW CANDIDATE.

Good Old Tailor pretty soon.

Guess I'll have to see "Good Old Burke the Tailor" pretty soon.

That big brother of mine told me to be sure to call on him at 18 School St., or to see his man, Tom Hayes at 843 Washington St., as soon as I landed in Boston, and the bunch here tell me that was good dope.

THE COSMOPOLITANS PLAN

FOR FIRST MEETING

Temporary National Chairmen

Elected - Reception to Be Held Within Two Weeks.

On yesterday afternoon the officers and executive committees of the Cosmopolitan Club held their first meeting to make plans for the ensuing year and appoint temporary national chairmen for the reception to be held within two weeks, which will occur on October 19 in the Union.

Several new men were elected to membership in the club, and the following appointments temporary national chairmen: E. D. Peck, America; Edward Hurst, British Empire; Edward Adam, Indian Empire; M. S. Waddell, Australian Empire; S. G. G. Crow, China.

A meeting has been called for the temporary chairmen on Wednesday, October 5, when they will discuss the program and general plans for the reception.

The members of the club extend a hearty welcome to all new students and urge that all of them make every effort to attend the reception which is given primarily for their benefit. It will be remembered that foreign students are members of the club, and all of the men will be cordially invited to be present.

MANY OUT FOR PRACTICE.

Freshman Class Yields Several New Candidates for Track.

There were many men at the Field yesterday busy practicing for the second meet to be held on Columbus Field. Though the times of the runs were rather slow and the distances in the field events were far from records, the interest already shown for track a number of new men reported from the Freshman class.

Since the second meet comes on a half day and many of the runners may wish to go to their nearby homes, it may be expedient to either hold this meet on the Friday preceding or to schedule it to the following week.

In order to ascertain the number of men that will be able to compete on Saturday, Captain German has proposed a look in the dressing room at the meet.

All men who will be able to present their names as soon as possible that the officials may decide whether a meet can be run off.

HUNTING HALL LECTURE.

Appalachian Club Will Have Talk on the Himalayas.

The Appalachian Mountain Club promises a rare treat to the members of the club and the general public in the lecture on Wednesday evening, in Huntington Hall, by Charles A. Gilchrist of Philadelphia. Gilchrist has been stationed in the Philippines, and while there was one of the first to visit the great Taal volcano, the story of which was the subject of his last talk before the club. The nearness of the islands to the Continent of Asia has given Mr. Gilchrist an opportunity to visit the Himalayas, which he has viewed and climbed with the help of the local inhabitants.

The subject of his lecture is "The Himalayas of the Pacific," which are the giants forming the crest of the world, and his camera has been most helpful in giving some more of the delightful views for which it is famous among mountain-loving people.

The time of the meeting is 8 o'clock.
