The Corporation of the Institute yesterday afternoon confirmed the following appointments and changes in the teaching staff:

Promotions.
The promotions are: Associate Professor Charles H. Warren to be Professor of Mineralogy; Assistant Professor H. H. Quimby to be Associate Professor of Palaeontology; Assistant Gordon R. Wilkes to be Instructor in Heat Measurements for two years; and Professor W. H. Walker, Jr. to be in charge of the course in Chemical Engineering.

New Appointments.
The new appointments are: Herbert W. Smith, instructor in English for two years, replacing Mr. Gunns; F. H. Lathrop to be instructor in geology; replacing Dr. Loughlin; and Oris William Long and Paul Robert Leiden, each for one year as instructors in chemistry, in place of Mr. MacKenzie, on leave of absence.

W. R. Shaw is appointed instructor in physics for two years, replacing H. L. McVay; C. E. Morrow is appointed full-time instructor in architecture, replacing Mr. Cory, half-time, and Randall Cremer, E. C. Heilbock, W. R. Richardson, W. L. Collins and O. R. Saywer are to be assistants in civil and sanitary engineering for one year, replacing Messrs. Benson, Ireland, Roebuck, Morrison and Packer. James D. MacKenzie becomes instructor in geology for one year, in place of Mr. Goddard; Paul M. Taylor is assistant on analytical chemistry for one year, and Eugene T. Naumov the same position, replacing J. V. MacDougal.

In mining engineering and metallurgy, Ralph L. Bartlett, assistant for one year, replaces T. G. Chapman. Bertrand F. Cremer is appointed assistant in chemical engineering for one year, replacing Mr. Wilkes, promoted. In mechanical engineering, there are a number of changes: D. J. McFarland, Kenneth C. Robinson and D. M. Taylor being appointed assistants for one year, replacing Messrs. A. L. Gardner, C. A. Robb and H. W. Waterfall, respectively. Lewis R. Gommes is appointed assistant in physics for one year, replacing J. P. Maxfield, promoted, and James H. Kline becomes assistant, replacing R. D. Parmeton.

Professor John Knox Taylor was appointed professor in the department of physics, and becomes head of the department, and Professor Waldemar Lindgren is appointed William Barton Rogers professor of economic geology, and in charge of the department of geology.

Reappointments.
The following were reappointed for one year, being assistants in the various departments: Ernest C. Bent, professor's assistant in chemistry; N. G. Harland, electrical engineering; H. M. Blosser, chemist and Laban; Harry G. Davies, wood and forestry work; Arthur P. English and James T. Shurlock, machine tool work; T. H. Haines, R. G. Adams and J. S. Lemmon, mechanical engineering; L. A. Salinger, (half-time) industrial analysis, and Melvin M. Thomas, research assistant in organic chemistry.

Forty Appointments in Instructing Staff Confirmed by Corporation.
