WOODROW WILSON CLUB TO MEET THURSDAY

Technology to Become Member of the National College League.

All men who advocate the election of Governor Wilson as President of the United States are requested to meet at 4:00 tomorrow afternoon, October 17, to organize a Technology Wilson Club, at a place which will be announced in tomorrow's TECH.

This club will be a branch of the College Men's Woodrow Wilson League, a national organization, with headquarters in New York. The Massachusetts branch has its main office at the Hotel Lenox. The Hon. Richard Olney, Secretary of State under President Cleveland, is president of the organization.

Mr. M. H. McDonnell, a Senior in the Harvard Law School, and president of the Harvard University Woodrow Wilson Club, will be present, and speak interestedly on the subject. The Massachusetts branch has been working organization of a college public club, drawing from his experience with the Harvard Club and others which he has helped to organize. He will outline the plans of the league for the rest of the campaign.

Technology is late in organizing, and it is hoped that all men interested will be at the meeting to get a live club which will become may be well represented in the college demonstration which the league plans.

CHEMICAL SOCIETY.

Meeting in Union Tomorrow—Important Business Discussed.

The first meeting of the Chemical Society is coming tomorrow night in the Union at 6:15. Professors Talbot and Walker have agreed to talk to the Society, and will be present, and anyone who wishes to hear one of his bright expositions on the subject of the evening will be able to.

The program for the meeting is as follows: 6:15, President Howlett calls meeting to order; 6:15 and 6:30, reports of officers; 6:50, business meeting; 7:00, Professors Talbot and Walker to talk; 7:50, Adjourn.

C. E. WHITWELL, 1914, has also been selected Grand Master of the show during the year, and is also of selecting Grand Master of the Show during his fourth year. This is one of the highest honors in the University, and it is hoped that a large number will turn out this afternoon to hear the report of the subject.

GOLF CLUB MEETS THURSDAY.

President Howlett Calls Meeting to Decide on Course Used.

In Regress 51, a meeting of the Golf Club will be held on Thursday, at 1 o'clock. The report from the Committee on Courses will be read and discussed. There are various points in question, and it is feared that a sufficient number of men show interest will be decided upon and a fall tournament started immediately. The discussion will include the number of matches which will be played with outside teams and college squads. It is urged that any man who intends to play this fall be present at this meeting, yet if it is not possible, to send his name to the meeting or to President Howlett.

Three new grand stands have been completed at Brown.

COMPETITION FOR SHOW PUBLICITY MGR. STARTS.

Candidates From Freshman Class Meet Manager Whitwell Today.

Every Freshman in the Institute should come to the show in Room P, the Union, today, at 1 P.M., and hear the requirements for the competition for second assistant Publicity Manager. Manager Whitwell will be in the show office to meet all candidates for the position and will give a brief outline of the work for the year. It is very important that all men who intend to come out and go on should see Manager Whitwell at this time, for the eversion will begin immediately and will last for probably two or three weeks. The men chosen must have the ability of becoming members of the Tech Orches-

LARGE NUMBER REPORT FOR ORCHESTRA TRIALS.

Men Needed Who Play the Cello, Trombone, Bass and Viola.

"A large number of men reported yesterday afternoon in the Union for the first tryouts of the Tech Orchestra. There were especially a large number present who were playing out for the piano and violin positions, and while all men who are capable of playing up to the required standard can be used, the management is particularly in need of trombonists, basses, violins and violas.

The practice was under the direct supervision of Mr. Ekman, the former director and Mr. Kaman, who will lead the Orchestra this year. Mr. Ekman is confident that Mr. Kaman is qualified to fill his position, and that under his leadership the orchestra will continue to progress as in the past. Mr. Kaman has had wide experience in the fields of music and expects considerable reputation in the New England States. He is at present serving as an instructor in harmony, the piano, and in the violin. Besides holding a position in the music department of the public schools, Mr. Kaman has also played a great deal in concerts, having at one time made a tour of the United States.

The plans at present provide for the orchestra to take the place of the one usually hired by the Show. This will save the Show expense, enabling it to be spent on the long trip of the team, and the orchestra will take place of the beginning of next term. It is urged that the band play its best, and cooperate in every way that it can to make it a success.

The names of those making the Orchestra will be announced later. A list of those who have been chosen is printed on page 9. This means that all men are very anxious to have all the men come out and give the best results.

The tug-of-war men are coming out of the Music Department, having met in the second assistant Publicity Manager's office to meet Mr. Fox and arrange for the election of the officers for the coming year.

The large number present who were trying out for the positions of trombone, bass, and viola, a large number continue in flag	CEO.

MANY BUTTONS SOLD.

Major Cole's Suggestion Is Great Success.

Major Cole's idea of the little Tech button has met with great success. A large number of the buttons have been sold since they were circulated among the freshmen. The buttons have been nearly equally distributed between the graduates and upperclassmen. The students have been right behind in the number of purchases, most probably because the idea is a good one.

The name of the product is the little Trech

Large number report for orchestra trials.

Men needed who play the cello, trombone, bass, and viola.

A large number of men reported yesterday afternoon in the Union for the first tryouts of the Tech Orchestra. There were especially a large number present who were playing out for the piano and violin positions, and while all men who are capable of playing up to the required standard can be used, the management is particularly in need of trombonists, basses, violins and violas.

The practice was under the direct supervision of Mr. Eksergian, the former director and Mr. Kaman, who will lead the Orchestra this year. Mr. Eksergian is confident that Mr. Kaman is qualified to fill his position, and that under his leadership the orchestra will continue to progress as in the past. Mr. Kaman has had wide experience in the fields of music and expects considerable reputation in the New England States. He is at present serving as an instructor in harmony, the piano, and in the violin. Besides holding a position in the music department of the public schools, Mr. Kaman has also played a great deal in concerts, having at one time made a tour of the United States.

The plans at present provide for the orchestra to take the place of the one usually hired by the Show. This will save the Show expense, enabling it to be spent on the long trip of the team, and the orchestra will take place of the beginning of next term. It is urged that the band play its best, and cooperate in every way that it can to make it a success.

The names of those making the Orchestra will be announced later. A list of those who have been chosen is printed on page 9. This means that all men are very anxious to have all the men come out and give the best results.
