VOTES FOR COLLEGE MEN.

It is most gratifying to see that two of our most important Eastern States are collecting the removal of all legal obstacles that have heretofore prevented the admission of students from these States to the National election.

A man's personal vote means a great deal to him, and when he has enjoyed the privilege of voting through a technicality which is in the present day, is not a very safe one.

We are delighted to see that another institution which should take the attention of the public is the M.I.T. student body.

The new edition of "Concerning M.I.T." has arrived and is ready for distribution. It is a book which we give away upon request to all new students of the Institute. But perhaps no book has been more useful than this one to all the students of the Institute.
