WHIRLPOOL SPEAKS AT BIG WILSON RALLY Discusses High Cost of Living As Chief Issues in the Coming Election.

Mr. Sherman L. Whipple gave an address at the Wilson rally at the Union yesterday. He said that the Wilson ticket stood for peace, and that the party was in favor of the referendum and the recall. Mr. Whipple made light of the tariff, and the trusts. He said that the most important issue was the high cost of living. He then proceeded to make a more detailed statement, but only said that the high cost of living was the most important issue involved.

Of the many issues involved in the campaign, none he mentioned as being of paramount importance, that of the rapidly increasing cost of living. He gave 100 per cent of the blame to the Republican party on this question, and gave as his opinion that they ought to be judged mainly by their attitude on this one issue.

Mr. Whipple finished, he stated in their platform that the high cost of living was of great importance. He then went on to say that they had to do something to alleviate it. He said that he thought that the Democratic party would take action on their report.

Another reason assigned is the scarcity of cattle per capita in the country. He then said in closing that the Wilson ticket had no decided stand on this most important issue.

The Democrats, on the other hand, said, define a two-fold reason, namely, the tariff, and the trusts. Mr. Whipple declared that he thought that the Wilson ticket might be able to handle this fact, and take action on their report.
