SENIOR DINNER.

Men of 1912, now is the time to join in the class and to Technology to attend the first Senior dinner of the year, as well as to make your function, which is due to the name of the Senior Class.

AN APPEAL.

On November 16 there takes place the firstjunior athletic meet of the year, the New England Intercolligate Athletic Association's cross-country race, which will bring together many men from the most prominent colleges and universities in the East. In it is not possible for the undergraduates to arrange, with the student body and the Faculty, a means of entertainment for these men who are our guests. We have excellent facilities for making such arrangements as they are allowed to invite in order to spend their time in their best interest, and we should spare no effort to make this meet one of the most pleasant from its social point of view.

The Union could be made a seat of opera for them during their entire stay, and on Friday evening, the 16th, there could be a large table dinner increasing the program which might include selections of the musical character by the Musical Union. The most essential feature of such an occasion is a sufficient number of men who are not only willing to do their share. The Athletic Association should consider for a short session on arrangements and every man in Technology should consider himself personally responsible for the pleasure of the visiting guests.

We should let the men return with photographs of Technology spirit and hospitality to their own colleges and to the place where, perhaps, the unfortunate idea may have taken root that we are losing the truest sense of the term. Conditions for giving themselves to the pleasure of their college and the unconscious cultivation of a deep feeling for their college. Let us show them that our feeling is deeper by reason of the peculiar conditions under which our Institute exists daily at either the Gym or the Oval. Is coming into good form under steady signal practice and a little scrimmage work the last few days. Pickford wishes to see everyone who is willing to do their share. The Athletic Association should consider himself personally responsible for the pleasure of the visiting guests.

NEW CLUB AT HARVARD.

The football team, which practices daily at either the Gym or the Oval, is coming into good form under steady signal practice and a little scrimmage work the last few days. Pickford wishes to see everyone who is willing to do their share. The Athletic Association should consider himself personally responsible for the pleasure of the visiting guests.

THE TECH NIGHT TICKETS

Seats Reserved for Freshmen in First Balcony, With Upper Classmen on Floor.

Tickets for "Tech Night" at the Shubert are going fast. Ships are being given out when payment is made, which may be exchanged for tickets after Thursday. All the Freshmen will be in the first balcony, as usual, and the Grace upper classmen will occupy seats on the floor. The members of the Freshman teams will have the two front rows in the balcony, and the Sophomore teams will sit in the boxes. The seats on the floor will be $2.00, and those in the balcony $1.50. These may be obtained in the corridor at Rogers until Saturday. The committee advises the faithful to come early and avoid the rush. There are rumors that many new situa
tions will be introduced into the show which will bring down the house.

FRESHMAN OUTLOOK.

Football and Tug-of-War Doing Well—Relay Neglected.

The prospects of the Freshman class in the relay race are somewhat better than in previous years. There has been a decided slump in the efforts of some of the men who have been trying out for the team. In one or two cases some fast runners have neglected to show up for practice and for their trials. Monday there were few come out for practice, and the line passing was entirely neglected. Coach Edy says that there has not to be harder work and more practice in flag passing if the Freshmen expect to pull out the winners on Field Day. The most promising candidates at present are Dean and Libbey. Owing to sickness, Adams, one of the fastest men, is out temporarily, but it is expected that he will get his time trial the first of next week.

The football team has been having steady practice and a little scrimmage work the last few days. Hill is being tried out at right half-back and looks promising. Krieger, as center, has added new strength to the line.

The tug-of-war team, which practices daily at either the Gym or the Oval, is coming into good form under the direction ofitto, V. Manager Fieldford wishes to see every man in the team out practicing every day for regular practice, because he says that it is the daily drill that counts very nearly as much as weight and muscle.

Guess I'll have to see "Good Old Burke the Tailor" pretty soon.

That big brother of mine told me to be sure to call on him at 18 School St., or to see Tom Hayes at 843 Washington St., as soon as I landed in Boston, and the bunch here tell me that was good dope.
