BIG WILSON PARADE FOR TOMORROW NIGHT

Technology Delegation to Wear Sash and Cap--Torches and Red Fire.

Plans for the Woodrow Wilson College Men's parade in Boston tomorrow might have been rapidly progressing, so that the turning out by the different representative colleges of New England, it is expected, will be one of the greatest ever seen in this city.

This parade will be an intercollegiate Wilson Demonstration, and only college men will be in line. Each college will be represented by its students, wearing a distinctive uniform or regalia. The Technology branch of the organization will be attired in sash and mortar board hat. Each man will be furnished with a torchlight which will keep as gaslights. There will also be distribution of red, white and green railroad rockets, which it is expected will set off the firing. Complete regalia are being sold by the Wilson Club members at a price of the materials above. There are a few more uniforms left, so that if any men wish to be in on the arrangements the club urged immediate acquaintance of filling in the desired information. The place and time of the distribution of the uniforms will be announced in THE TECH tomorrow.

FRESHMAN MEETING.

Appointment of Committees to Be Announced.

A meeting of the Freshman Class will be held at 7 P. M. to-day, in Huntington Hall, the purpose of which is to make the final arrangements for Freshman Field Day. The various committee members of the Class of '22 will be appointed at this meeting, as well as those of '21. All those interested in arrangements in regard to this matter should be present at this meeting to-day.

The report of the treasurer will follow the transaction of the routine business of the club, and the various committees, the various teams will give short talks on their progress.

More money is needed in order to meet the expenses of Freshman Field Day, and it is asked that all class dues in arrears be paid up before this time.

MUSEUM OF FINE ARTS.

Professor Seaver to Lecture Sunday Afternoon.

Sunday afternoon, November 3, there will be two lectures withRECITATIONS at the Museum of Fine Arts, which all Tech men are cordially invited to attend. In the descriptive Arts, which will be given by Mr. Morris Carter, Librarian of the Museum, on "Harpy German Pictures." This lecture will be held in the Panel Picture Room of the Museum Department of Classical Art Mr. Henry L. Seaver, Assistant Librarian of the Institute, will speak on "A Roman Por-

W. B. Snow Speaks to the T. C. A. at Union

Told How Friendships Made Here at Tech Are Valuable in Later Life.

Those who gathered in the Union yesterday noon to hear the T. C. A. speaker were first urged by Secretary Talbot to come out and help in the social service work and "buddy" brother in work with the organization. He then introduced the speaker, Walter B. Snow, who received his degree in the Mechanical Engineering course of the Institute in 1893, whose subject was, "Making Tech Spirit Count."

Mr. Snow said that he thought the spirit which was Tech was of a better sort than the more exasperant type in the colleges where so much attention was paid to physical fitness. He pointed out, it is firmly grounded by the nature of the courses. He showed how a man who had a technical education was better fitted for work of any kind after leaving the Institute, because he could apply his true engineering and construction knowledge to anything he should have. In telling of how Tech men were building up the prestige of the Institute in the Legislature and other departments of the government, he commented upon the prominent men of his acquaintance who had graduated from the Institute, and who have done a great deal of good work in connection with the improvement of civic conditions in all parts of the country.

Mr. Snow then went on to show how the friendships acquired at Tech are of the greatest value in our life after leaving the Institute. It is of the greatest benefit to have a knowledge of how to contact which, he says, can best be derived from the work in connection with the humanistic part of the T. C. A. This historical knowledge helps the insti-
tute of the courses. He showed how a man who had a technical education was better fitted for work of any kind after leaving the Institute, because he could apply his true engineering and construction knowledge to anything he should have. In telling of how Tech men were building up the prestige of the Institute in the Legislature and other departments of the government, he commented upon the prominent men of his acquaintance who had graduated from the Institute, and who have done a great deal of good work in connection with the improvement of civic conditions in all parts of the country.

It is of the greatest benefit to have a knowledge of how to contact which, he says, can best be derived from the work in connection with the humanistic part of the T. C. A. This knowledge helps the insti-
tute in its important work, and gives the Tech man an advantage in the world.

JUNIOR BASKETBALL.

Candidates to Report Monday and Three Times a Week.

On Monday, November 4, the Junior basketball team will report at the Gym. Practice will be held on Mon-

day, 4.30; Wednesday, 4.30; and Friday, 4.30 o'clock.

Manager Rootus requests it be made known that all candidates are eligible to come out for practice and will be welcome.

The entire team of last year is back and ready for play. This team has made good time since the last practice and has shown that the team is in good shape. The Manager requests that all candidates be present at the practice.

The team is composed of the following: Fred H. Williams, J. B. Snow, T. F. Robinson, R. L. Talbot, L. R. Talbot, W. E. Lucas and Alden Frankhous. The team will play on Friday night.

WILSON CLUB DEBATES BULL MOOSERS TODAY

Professors Clark, Pearson and Robinson Are Judges--Interest High.

The much-talked-over debate between the Woodrow Wilson Club and the Progressive Club of the Institute, the result of a challenge by the Bul-Moose team organization, will take place this afternoon at 4.15. The field of candidates will be Room 8 Lowell.

An unusually able set of judges have been selected in the persons of Profes-
sors Professors Clark, Pearson and Robinson of the Department of English.

The debate will be hotly contested by the ablest speakers and sewing of both of the opposing sides. The men to take the platform in behalf of the Wilson Club are H. D. Hicke, E. E. Pastene and R. L. Thomas. For the Progressive side of the orator, W. R. Kennard, W. E. Lucas and Alden Frankhous will serve. There should be only one debate on either side.

Before the debate, the declamations will be read. The Progressive Club have already selected prominent men of the faculty to read these declamations.

The debate will be held in the Panel Picture Room of the Institute and will be broadcast over the University's radio station.

The debate is expected to be one of the greatest ever seen in this city.

SOPHOMORE TIME TRIALS.

Final Selection of Twelve Men to Be Made Today.

This afternoon's final time trials for the Sophomore relay team will be held at the Field. The twenty men who will run on Field Day will be selected, and as there are not very many contestants out, everyone turn-
ing up will have a good show of mak-
ing the place. Coach G. L. Lansing has selected in the persons of Professors Clark, Pearson and Robinson of the Department of English.

J. B. CONNELLY TALKS IN UNION THIS NOON

Author and Magazine Writer as Speaker.

The Progressive Club will have the opportunity of hearing Mr. James B. Connelly speak on the "Progressive Campaign" at 12.30 P. M. today. In the Union. Besides his political renown, Mr. Connelly is known throughout the country as a writer of sea stories, and has contributed many stories to Scribner's and other prominent magazines. He is a candidate for Con-

gress on the Progressive ticket from the 19th Congressional District.

Mr. Connelly has held various government positions, was famous as an athlete, and served with distinction in the Spanish-American War. In 1908 he was in the White House around with the American fleet by special or-
er to the government. Since that time he has been active in the field of special investigation of economic conditions. Some of Mr. Connelly's most popular books are: The United States Navy and the War 1812, The Steamer, and An Olympic Game, which are among the two books' books, besides several hundred articles appearing in leading magazines and newspapers. Some of his stories have been translated into foreign tongues.

TECH ASSOCIATIONS.

Formation and Work of the Northwestern Association.

The Northwestern Association of the Institute of Technology was founded in 1887 and originally drew its membership upon the whole country west of Pittsburgh. During recent years Technology Associations have been formed in many cities in the Middle West, and the membership at the present time is about 450. For the first time an association is to be held at Chicago, and the majority of the members are in this city or vicinity.

The Association holds informal meetings at least once a month, and at least one meeting outdoors in the summer time during the year, and the annual dinner occurs towards the end of February or early in March. The annual meeting is held in June or July, at the regular outdoor meet-
ging of the Institute. Regular luncheons are held every Thursday at 12.30, at the Grand Pacific Hotel, and rooms. The Association publishes bulletins from time to time.

CALENDAR.

Friday, November 1, 1912.

1.30--Progressive Club Rally--Union.

1.30--Freshman Meeting--Hunting-Don.

4.30--Bandoneon Rehearsal.

4.45--Junior Class Ballots Due--Union.

BANJO CLUB REHEARSAL.

The Banjo Club held its regular re-
hearsal in the Union yesterday at 4 o'clock. Coach O. L. Lansing was presi-
dent and gave the club a very hearty welcome. The club, he said, was the most popular music-making club on campus, and the squad will try to be another similar record.

The seven men that formed last year's remarkable team, and who will again be the basis of the team this year, are: F. W. Willham, T. E. Hurd, R. C. Myers, W. G. Merrill, D. Bryant, C. R. Fox and W. H. Price.

The annual flag meet at Tech's Col-
lege Tuesday resided in an over-
whelming victory for the Sophomore team. The President then placed a single flag in any of the 135.
