T. C. A. WANTS MEN FOR SETTLEMENTS

Volunteers Called for Work at Boys' Clubs in Somerville and Dorchester.

The T. C. A. is responsible for four Tuesday evening meetings at the boys' departments of the Somerville and Dorchester Boys' Clubs.

On November 19 it is proposed to give a first-class entertainment, November 25 and December 17, Tech students will give talks on some of the phases of the settlement work, or on any other subject that may appeal to the speaker.

Miss E. M. Davis, of the Harvard Institute of Boston, has been asked to speak on December 19.

These talks are a splendid chance for men to obtain valuable practice in public speaking, at the same time that he is helping a crowd of boys in a real way, and the secretary of the T. C. A. hopes that he will receive today or tomorrow the names of the men who are going to speak on December 19 and 27.

As for the entertainment, any man who is willing to sing, read, do a skit, or anything else he has off interest is urged to come to the T. C. A. and volunteer.

The T. C. A. Secretary feels that this ought to be the easiest kind of work for which to enlist men, yet none have responded, although a call was made last Thursday at the meeting and a notice has been put up on the bulletin board for a week.

An urgent call is also made for a man to take charge of a club of boys, 16 to 18 years of age, at the Dorchester residents' house, settlement house, Gordon Place, near Fields Corner. The boys meet Tuesdays, from 7:30 to 9:30, and need a leader. The young lady in charge of the house, Miss Holman, is doing her best with the boys, but she says that she cannot keep their interest, and that she must have a Tech man, for their interests are along mechanical lines, or the club will go to Pieces.

Already the nearby schools are competing with the settlement house.

Any man who is willing to go out to the club, even one Tuesday night, is requested to report to Mr. Talbot, but it is hoped that the T. C. A. will be able very soon to secure a regular man.

There is a chance for three or four men to get rooms cheap at 24 Rutland Square, Woodbury House, in return for some service in watching charge of the boys who room there. These are all working boys, and the work, such as general supervision, would not be heavy.

MANAGER COMPETITION.

(Continued from Page 1.)

The fact that none but the most ableful relations existed between the groups of Harvard and Tech men who paraded on Saturday evening is of no importance to any other tailor has as large a variety to select from.

Better Friends.
