REV. E. H. VAN ETTEN
TO ADDRESS T. C. A.
New Curate at Trinity Church
Will Have as Topic "The
Second Mile"

The speaker at this week's T. C. A. meeting Thursday, at 5.30, in the Union, is a man well known to a great many Technology men. Rev. B. F. VanEtten, curate of Trinity Church, his topic is, "The Second Mile." Mr. VanEtten is a recent graduate of Amherst College, and came to Trinity only last year. During his short time at the church he has become very popular with young men, especially those Technology men who are in the neighborhood of St. Andrew, with which he is closely connected and for which he does a great deal of work.

The interest of the students in the church and church work is high, and inspiring talk is looked for.

SIR RAMSAY'S LECTURE.
(Continued from Page 1, Col. 1.)

The day following the opening lecture of Sir William Ramsay's series of lectures at the Union, Mr. VanEtten was again present, to answer questions. Mr. VanEtten is a young man, a recent graduate of Amherst College, and is expected that a large crowd will be at the meeting. Mr. VanEtten has won an enviable reputation as a speaker and preacher, and an interesting and inspiring talk is looked for.

The bulletin boards have again become the center of interest of Technology students. All their sundry collection of data, most of which is fit for the files of a newspaper, is now in the collection of the times.

Under present conditions the bulletin boards will be abolished altogether when we consider the exceedingly poor way in which they are cared for and the extreme neglect which is shown by the officers of the several different activities whose duty it is to post notices.

Among several other instances of neglect, one is evident at this time, more especially on the Union bulletin board. Perhaps the most widely read, are the facts that the 1914 bulletin board has not yet been posted, that there are several Institute notices of more or less importance which have not been placed on the proper sized cardboard—these are, therefore, not in accordance with the rulings of the Institute Committee, and at the same time being torn and in some cases lost. Many notices are several days old as well.

It is high time the Institute Committee assumed a strong bond in this matter and made sure that their rulings are carried out.

Many schools in Germany and Switzerland offer courses of instruction in the art of waiting on table. The Union College High School goes still further in this direction, and under takes the complete training of hotel waiting.

This includes thorough knowledge in four languages, geography, training in deportment, the study of hygiene and knowledge of gymnastics, calisthenics and dancing.

A number of chemists from the Institute of Science and Technology will be able to use the college laboratory during the winter. Mr. VanEtten has done a great deal of work.

Regardless of the work you may take up after you leave Technology, the Oliver Typewriter will be a necessity. Why not take advantage of the opportunity to learn The Oliver while you are studying? It is cheaper to do your own typing without than hire a stenographer.

To prove the value of this advertisement I will allow a discount of $5.00 to every man who orders a suit or overcoat within two weeks if a copy of this advertisement is presented.
