The results of the two doubles are as follows:  First round, G. W. Blakely, '14, and G. H. Burritt defeated P. H. Bartlett and M. S. Mumford in three sets. In the first two sets the games were close, but in the last game the winners allowed no games to the losers. Score, 4-6, 7-5, 6-0.

GASOLINE FROM GAS

During the last three years the production of the more volatile grades of gasoline from natural gas issuing from oil wells has become a profitable industry of increasing importance.

There were an estimated value of $531,704. gasoline produced shows an increase in 1911 as was expected. Unquestionably it will eventually become a settled and flourishing business, for millions of cubic feet of gas that is now wasted on leases might be converted into gasoline, should the demand and price warrant it. The United States Geological Survey has recently attempted to compile figures of production of gasoline from natural gas, but many plants were operated intermittently and no records were kept of the output. Statements from such producers could only be estimated. However, crude the method of manufacture, a report of the quantity of gasoline produced shows an output in 1911 of 71,253,539 gallons, with an estimated value of $517,186.

FIELD DAY TICKETS

Field Day grandstand tickets now on sale at the Union every day during the new year are fast going. The middle section is entirely sold and only a few seats left on the side sections. W. G. Thomas, who is managing the sale of tickets, says that with favorable weather conditions a record crowd may be expected.

Ice hockey is likely to become a regular sport at Brown University this winter. The growing interest in the Canadian sport is noticeable everywhere and the College men have good material with which to build a team. There is no indoor rink in Providence, but there generally is good skating on the river there. It is likely that an indoor rink will be built if it is decided to adopt the game this year.

Technology Men will make no mistake in depending upon this Great Store for the Newest and Best Ideas in

Clothing, Hats, Shoes, Hosiery

and in fact everything--that has a place in the College man's wardrobe.
