THE TECH

THE TECH, BOSTON, MASS., NOVEMBER 7, 1912

1912 NOMINATIONS.

Must Be Signed by Ten Men—Due Saturday, Nov. 16, 1912.

The nominations for officers of the Class of 1916 will be opened on Saturday, Nov. 9, 1912. All nominations must be signed by at least ten men in order to be valid. They must be addressed to the Ballot Committee of the Class of 1916, and handed in at the Cage before the hour of 4 P. M., noon, on the afternoon of November 16, 1912. The nominations will not be accepted, or allowed to remain on file, by the Balloting officers after that hour. The list of candidates will be available for inspection, and any man desiring the office may have it by confiding of victory. The practice of voting all at once, but in the last two weeks the men have responded notable to the fears of the coaches, and the results will be made manifest in the splendid team work which may be seen on the last day. Seats for the class are practically entirely sold out, and grand stands at the Field are likely to be at a premium after this game. All that is needed is a pleasant day to make Friday a big success.

GLEE CLUB REHEARSAL.

New Men and Old Are Requested to Show Up in Union.

There is still plenty of room for good men and the club is in need of first tenors. All men who were on the class rooters must be there at noon. All that is needed is a pleasant day to make Friday a big success. Tickets can be bought at the Cage before FIVE O'CLOCK TONIGHT.

OFFICERS MEET TODAY TO ARRANGE FOR FIELD DAY.

The class rooters must be there at noon. All that is needed is a pleasant day to make Friday a big success. Tickets can be bought at the Cage before FIVE O'CLOCK TONIGHT.

PREPARATIONS FOR FIELD DAY ARE MADE.

Indications Point to a Record Attendance at Field and Show.

BIOLOGICALS TO MEET.

Dr. M. J. Rosenau to Speak on Pasteurization of Milk.

This afternoon, at 4:30 o'clock, the Biological Society will hold a meet-
ing in the 130 Massachusetts Avenue.

Dr. M. J. Rosenau has gained a worldwide reputation for his remark-
able work on the subject of milk pasteurization, and his extensive information on the subject will permit him to present his lecture in a way that will prove both instructive and interesting. The invitation to hear him is therefore extended to men of all ages, and a large attendance is looked for.

It is of importance to members of the society to know that previous to this talk a business meeting will be held in the same room at 4:25 P. M.
