CANDIDATES FOR THE TECH MEET THIS NOON

Candidates For The Tech Meet in Lower Office in Union at 10 o'clock P. M.

This noon, at five minutes past one o'clock, there will be a meeting of all men who intend to come out for a position on THE TECH. The meeting will be held in the lower of THE TECH office in the Union. A large number of candidates are expected out, and already many have signified their intention of competing for a place. It is vital to THE TECH that a large number of the students take enough interest in the paper to give a small portion of their time to work, and indeed unless there is a sufficiently large number of candidates there is great doubt as to whether THE TECH will be able to continue.

At the mass meeting held in Huntington Hall last Friday it was brought very clearly and forcefully before the student body that THE TECH was a very valuable asset to student life, Institute spirit and the success of Institute activities, and it was clearly shown that support in the shape of subscriptions and of political interest to the extent of devoting one's time to THE TECH offices in the Union. A large number of candidates for THE TECH have already appeared in the lower of the present one in New York City. It will cost about $1,000,000.

DARTMOUTH CROSS COUNTRY TEAM WINS

Taber of Brown First Man to Finish – Technology Gets Third Place.

By bunching four men at the finish Dartmouth was able to win the first annual cross-country race of the New England Inter-Collegiate Athletic Association over the Technology course in Brookline, with a score of 35 points. N. E. Fisher, the crack Brown runner, captured first place honors for his time in the time of 35 minutes, 21-5-6 seconds, after a hard race with Hall of Dartmouth, who finished second, and Taber of Brown third. The Institute team finished third with 35 points, while Brown came off with second place with a total of 50 points. H. S. Benson, the speedy Freshman, was the first Technology man to come in finishing in 35th place. F. J. Wall and R. E. Palmer finished in 14th and 15th places respectively, and R. D. Romney crossed the line in 22nd place.

WALDEMAR LINDGREN COMES TO INSTITUTE

Prof. Jaggar, Jr., as Head of the Department of Geology.

Waldemar Lindgren, chief geologist of the United States Geological Survey at Washington, is coming to the Institute to take the place of Professor T. A. Jaggar, Jr., as head of the Department of Geology. Professor Lindgren is still connected with the Institute, however, and is doing work in Sweden, where he is being employed by the United States government since 1901, and his specialties have been mining geology and economic geology of metalliferous deposits. He is a member of the National Academy of Sciences, Geological Society of America, American Institute of Mining Engineers, and of the Mining and Metallurgy Society of America.

Never before were so many professors together at a student social as at the Arabian-Indian Night of the Cosmopolitan National Nights on Saturday evening. In nearly every case they were accomplished by a lady, and together with the unique decoration of the Union, which was for the time given the increased flavor of the East, the gathering was an extremely amusing one.

President Lehrmier welcomed the audience and announced that on the third of this month the Anglo-American members of the club will hold a dance in lieu of a national event. All of the foreign students are invited to this affair. In case, said he, that some of the men did not dance, card games and other entertainments have been arranged for them, so that the event will be all inclusive of the cosmopolitan members of the Institute. On December 11 there will be held a Chinese night. Mr. Salibi, the night's national chairman, then took charge of the entertainment.

Mr. Salibi then spoke of the present conflict in which Turkey is engaged. The cause of the war is not, he said, a matter of religion, but it is a clash of two centuries with the unreasoning, cruel, and monolithic government of the Turks with the unreasoning, cruel, and monolithic government of the Greeks. He extended his welcome to a fellow citizen of the world.

Mr. Abdi-Khan Sulamakh, 1914, of Deli, Syria, then lectured on Arabian civilization. He said that many so-called authorities enlarge
