NEW TECHNOLOGY PLANS PROGRESS

Investigation of American Colleges Conducted by J. R. Freeman, '76.

Every Tech man is interested in the New Technology, and all want to know something of the plans that are being made for the buildings. The dictate of necessity directs that the student not proceed to work on plans for the New Technology without full knowledge of what has been done at other institutions. With this in view President Macfarlane devoted considerable part of the last summer to visiting educational institutions in England and on the Continent. A comprehensive survey of the physical characteristics of American colleges was made during the summer and summer under the direction of an alum.

VARSITY HOCKEY PRACTICE HELD

Manager Finds Promising Material for Coming Winter's Team.

A large number of men turned up at the Arena last night for the first practice of the coming hockey season. There was no team play at this early stage of the training, but Captain Kenney and Manager Hurlock wished to see what kind of material they have at their disposal before organizing the men into teams. Some clever shooting was displayed by several members of last year's team, and many of the new men distinguished themselves as quiet and accurate workers. The time of the next practices will be announced in Monday's issue of THE TECH.

NEW TECHNOLOGY PLANS PROGRESS

President Maclaurin devoted considerable attention to the investigation of what has been done at other institutions. With this end in view, the Institute authorities decided at the outset of the present term to proceed with plans for the New Technology. The site for the New Technology is being filled and graded under the direction of W. W. Crosby, '80, and will be ready for the next term. The Old Corner will be moved to the New Technology site.

CHESS CLUB MEETING

Arrange Tournament to Select Men for Future Meets.

A small but enthusiastic coterie of chess devotees turned out yesterday afternoon at a meeting held at the Union for the purpose of selecting men for a tournament which will be played in the near future. More men are needed to essay the lates so that the best possible men may be chosen to represent the Institute in the inter-collegiate meets next term. The elimination games will start about December 1st, and the final series must be played by two weeks after that date. Five games will compose each series, the winner being the player winning three out of the five games.

AS A SOON AS THE LIST IS COMPLETE THE PLAYERS WILL BE PAIRED OFF BY LOT AND THE SERIALS OF THREE PLAYING IN THE FIRST ROUND WILL BE ANNOUNCED IN THE TECH.
