RECEPTION POSTPONED.

Union Unavailable for Walker Club on Thanksgiving Day.

Owing to the fact that the Union will be unavailable on Thanksgiving Day, the Walker Club has been unable to postpone their usual reception and entertainment to a later date. Many of the students and members of the entertainers will be prevented from attending THE TECH. Every undergraduate should make it a point of attending this reception, as it is given by one of the oldest and most active clubs in the Institute.

The Walker Club was founded in 1905 by the students of Course IX, with the intention of making it a means for the professional clubs maintained within the faculty. How in order that the entertainments of the Walker Club would be representative of the entire Institute. In 1905, when the Course of General Studies was reorganized, the Walker Club, as the last class of Course IX, took the responsibility of conducting the first program of the new system.

The Walker Club has been a prominent feature of the Institute, and its members have always been pleased to contribute their best efforts to the annual reception. In the past, the reception has been held in the Union, with the exception of one year, when it was held in the Walker Club's own meeting room. This year, the reception will be held on Thursday evening, and all students are invited to attend.

CLASS HISTORIES FOR 1924 TECHNIQUE

All Stories for Year Book Due December First — None Received Yet.

Among the few opportunities offered at the Institute to the undergraduates with names in the literary field is the opportunity to write history for the Technique. That department of the Junior year book in the one of the class histories in which the four current classes of the Institute are represented.

Three histories are written by the sub-editor and it is a complete history of the students who have received these histories. The class histories are written by the students who have received them, and the editors are responsible for the accuracy of the information given.

WELLESLEY CONCERT.

(Continued from Page 5.)

After the reception, the students of the Walker Club will proceed to the auditorium of the Wellesley College, where the Wellesley College Orchestra will give a concert. The program will consist of four or five numbers, and will be followed by a social hour, during which the students of the Walker Club will have an opportunity to meet and talk with their Wellesley friends.

ENGINEERING NOTES.

The most powerful engine for its size in the world has been designed and built by the Cleveland Works of the General Electric Company. The engine is a four-cylinder, double-acting, high-speed, steam engine, and is intended for use in locomotives and other heavy machinery. It is capable of developing 500 horsepower at 800 revolutions per minute, and is designed to work on a steam pressure of 250 pounds per square inch. The engine is built in two parts, the cylinders and valves being separately bolted together.

We are all striving ourselves to see what the coming years have in store for us. Alright! But in looking forward let us not forget the blessings that are ours today.

THE ECHO OF ANNOUNCEMENTS

We echo the announcements of the course of study at the Institute. The new and revised course of study is now in effect, and students are advised to carefully study the new program. The course of study is divided into two parts, the first part dealing with the fundamental subjects, and the second part dealing with the specialized subjects. The new course of study is designed to prepare students for the professional work of the future.
