Mr. G. W. Coleman Will Speak On "Keeping Your Equilibrium"—Dublin

"Keeping Your Equilibrium" is the subject for the next T. C. A. talk on Thursday, at 1:30 o'clock, in the Union. It is a subject of vital interest to every Yank man, and it is hoped that there will be a large attendance. The speaker, Mr. Geo. W. Coleman, is a man of wide experience both in business and political affairs. Mr. Coleman is advertising manager of the McElwain Co., a boot and shoe manufacturing company located on Congress Street. He is president of the Cincinnati Advertising Club of America, a national organization which promotes methods of advertising throughout the country. At the present time Mr. Coleman is engaged in a series of lectures to other cities has accomplished much.

CATHOLIC CLUB HOLDS MEETING WEDNESDAY

Large Attendance Expected to Be Present—Mr. Mullen Will Speak.

The M. I. T. Catholic Club will meet in the Union on this evening to hold its third meeting of the current year. Dinner will be served at 6 o'clock, and all members are expected to be there at that hour. The chief speaker of the evening will be Mr. Thos. A. Mullen, a gentleman who is well-known for his ability for making after-dinner speeches. Although the opening of Mr. Mullen is to be the chief entertainment of the evening, the business which will follow his address will be of special interest to all, since at this time plans for a dance will be made, to take place in the near future. The meeting is expected to be a great success, and at least an attendance of seventy-five is looked for by the officers of the society.

ARCHITECTURAL SOCIETY TO HOLD TRYOUTS SOON

Plates Will Be Given Out to All Students Who Are in Good Standing

The tryouts for membership of the Architectural Society will be held in the near future. The test consists in making a tracing of some plate, usually taken from the Architectural Library. About two weeks are given for the men to complete this work. The tryouts are arranged to find the best tracers of the students whose efforts were up to the standard. They are then voted upon by the society, and if successful, are declared the members. Usually the tryouts are entirely completed by Tuesday, but this semester the society was unable to conduct them any earlier. The date on which the tryouts will be announced will be announced later in this T. C. H.

ADDITIONS TO GENERAL LIBRARY IN ROGERS

Sixty-seven Volumes Purchased From Fund Left by John Hume Cod

An addition to the General Library in Rogers of sixty-seven volumes has just arrived, and will be immediately placed on the shelves. The books were purchased from a fund left by the late John Hume Cod for the purpose of adding to the present collection a number of strictly non-technical books. Professors Baires and Noyes are the trustees of this fund, and are in charge of the purchasing of all literary items. This is the first set of books that they have bought, and more additions are expected to follow.

The amount of money will not be spent for several years, and a combination of books to be added to the library by this time. The purpose of specifying that these books shall be non-technical is to enrich the library in literature of this sort, to give some an opportunity of reading of a greater scope and variety not be limited to strictly professional subjects.

The Electrical Engineering Laboratory has been reclassified according to the decision of the system to facilitate the use of the books by the students.

COLLEGE NOTES

The total registration of the University of Pennsylvania is 5,261. This is a decrease of 51 from the enrollment of last year. The number of freshmen, however, is 22 more than the first-year class of a year ago, numbering 1,315 men. The Wharton School shows a big gain over the enrollment of any previous year.

An investigation of Yellow Helmet and Manistocks, two social organizations of the University of Wisconsin, will be begun by the Student Conference at Wisconsin to determine whether the societies have any purpose beneficial to the university.

The University of Michigan now has a greater registration of foreigners than any other American university. The foreign students numbering 226. Delta Phi Delta, a national honorary fraternity in Fine Arts, has been founded at the University of Kansas.

The subject for the annual discussion between the various departments at Yale for this year is the same as the question debated by Brown, Dartmouth and Williams last year. If Harvard has received a gift of $60,000 for the execution of a chemical laboratory from T. Jefferson Coolidge, former minister to Paris. The new laboratory, which is to be a memorial of his son, who died last April, will be the second of a group of buildings planned by the Harvard Department of Chemistry. The Coolidge Memorial Laboratory will be used chiefly for research work.

In the fall regatta at Princeton the Seniors won the one and eight-oared crew, and the Juniors won the two and eight-oared crews. The thumbnails, Bonaparte and Breezes, finished second, third and fourth, respectively.

A gift of $1,000,000 to Harvard College is one of several public buildings made in the will of Dr. Arthur Cabot of Canton, Mass., recently. Half of the income of this fund to be used in constructing books for the fine arts department of the Library, and half for the general purposes of the medical school.

THE ADVANTAGES WE OFFER

PROGRESSIVE methods, resources in excess of $87,000,000, and two conveniently located, thoroughly modern bank buildings, combine to make the Old Colony Trust Company the most desirable depository in New England for both working and savings accounts.

Interest-bearing accounts subject to check may be opened either at Court Street or Temple Place, and the two offices used interchangeably for the transaction of your banking business.
