WIRELESS SOCIETY OF NEW ENGLAND

To Meet at Tufts's College Saturday — Prominent Speaker Will Be Present.

A meeting of the New England Wireless Society will be held next Saturday, Dec. 7, at 8 P.M., in Robinson Hall, Tuft's College. This is the third meeting in a combination of the wireless societies of Harvard, Tufts and of the Institute. It is, however, a meeting of the Institute alone, and its membership is entirely that of the Institute. The wireless societies of Harvard, Tufts and of the Institute have tarred and feathered their association, and in its membership are only those who are interested in wireless telegraphy, and operators. The society considers itself entirely in the fact that such an authority as Mr. Greenleaf W. Flick is present to speak at this meeting, and his talk promises to be of interest. The Institute is now in New Bedford, and occupies a rare opportunity, say the officials.

WRESTLING TEAM IN EXCELLENT CONDITION

Test Matches Show Improvement — Opening for Freshmen in Matches.

The wrestling team is fast rounding into championship form, so that things are beginning to look promising, with the first meet only two weeks off. The team is being coached by Kelley, 1933, who has had considerable experience on the mat and has had training on the East Coast. Captain Preat expects to take at least one man in each class, possibly two in a few classes, on the trip to East Wyoming, where the opening meet with Clay Memorial is scheduled to take place.

Among the heavyweights it looks as though as it is between R. O. Newell and Wilson to represent the Institute. In the 125-pound class, Snythe Martin, Alexander, or Mather will take the trip, while Kelley and Hildreth will fight it out in the 125-pound class. Means and Snye see to have it all their way in the 125 and 150-pound classes, respectively.

The freshmen are showing up well under the coaching of Mr. Gray, and Manager Elodgeit, S. R., who is holding down the 115-pound class on the varsity team, is back again after a layoff, owing to an injury to one of his ribs. Any other freshmen or upperclassmen who show up well in the next two weeks has a good chance to go with the squad on the trip. Two matches are tentatively arranged with Brown and Boston Y. M. C. A., and there is a possibility of going with Tufts, Harvard and Needham Y. M. C. A.

1934 DINNER.

(Continued from Page 1.)

The committee on arrangements of the Basketball Tournament has been in active session all day on which much promises to be the setting for a gala occasion. The Institute Committee has been working on the preparation of this event for some time, and the success of the Tournament should be the more assured as a result of the efforts of the committee.

A committee, composed of members of the faculty, faculty and alumni, has been appointed by the president to decide on the best form of building for the Institute. Although many meetings have taken place, the committee has not arrived at a decision as to the form of building that would prove to be best adapted to the Institute's needs.

Dr. S. S. Ames, who has been serving as chairman of the committee, said that the Institute Committee had been meeting for several weeks and had been discussing the various possibilities. He said that the Institute Committee had been working on the project for some time and had been in active session all day on which much promises to be the setting for a gala occasion.
