SATURDAY, DECEMBER 7, 1912

MAJOR COLE'S LETTER

The reason that the Military Science Bulletin Board was not put up on the campus on Friday was that your attention was called to the fact by an announcement in the Boston Post-Dispatch. The Bulletin Board is now in operation and anyone who wishes to offer a prize to the Military Science Bulletin Board may do so. The prize will be a small price to pay for the winning of the prize as well as being of more importance than its intrinsic value. For this reason I offer you the sum of five dollars to be given as a prize or to purchase a prize, if that is preferred, and will be awarded to the member of the first year class, although not necessarily regular throughout the course, who at the end of the year has the most original and complete collection of the governing board of the greatest assistance to the management in keeping THE TECH going in any or all departments.

Are you considering this matter worthy of your attention? Is it not better to make a man want to attend classes than to close the doors of the Institute forever. We who love the Institute forever. We who love the Military Science Bulletin board.

Dear Sir:-I do not know what I would do without THE TECH for giving me encouragement on many subjects, and there seems to be no other way of reaching the student body. It has occurred to me that I might, to a certain extent, be successful in getting help to the student body if I offered an idea to a prize to the Military Science Bulletin Board.

I ask you if that isn't the way of reaching the student body. It even occurred to me that I might, to a certain extent, be successful in getting help to the student body if I offered an idea to a prize to the Military Science Bulletin Board.

Very sincerely,

Isaac V. Litchfield.

MAJOR COLE'S LETTER

Major Cole has arranged a schedule for the course in Knots and Splices at the twenty-sixth annual convention of the Massachusetts Institute of Technology. The following are of the course at the annual convention of the Massachusetts Institute of Technology.

COUSE IN KNOTS AND SPICLES OPENS TUESDAY

Major Cole has arranged a schedule for the course in Knots and Splices at the annual convention of the Massachusetts Institute of Technology.

Whether your ambition rides on an ox or an aeroplane—don't drive too hard.

Learn the joy and renewed zest that comes from relaxation in a pipe of good tobacco.

Our equipment for the year is not complete unless it includes the Oliver Typewriter, Model Five Number. Five.

Regardless of the work you may take up after you leave Technology, the Oliver Typewriter will be a necessity. Why not take advantage of the opportunity to get the Oliver while you are studying? It is cheaper to do your own typewriting than to hire a stenographer.

You can RENT the Number Five Model Oliver at the rate of $3.60 per month and when you have paid twenty consecutive months' rent, the Oliver will be presented to you without further expense.

Call at 146 CONGRESS ST. or Telephone Main 192 or 193

THE OLIVER TYPEWRITER CO.
