CIVIL SOCIETY DINES
TONIGHT AT UNION.

Mr. E. B. Backenhus of the United States Navy to Be Speaker of Evening.

Tonight, at 6:30 o'clock, the Civil Engineering Society will hold its annual Dinner of the year in the Union. The officers of the society say the dinner will be very interesting, one for which they have secured as the speaker of the evening, Mr. E. B. Backenhus, a graduate of the Institute.

Mr. Backenhus, who is at present a member of the United States Navy, has seen a good deal of foreign countries, and has in fact recently returned from the Philippine Islands to his present station at the Charleston Navy Yard. Beside those present at the dinner of the society, several engineers will also be given on the 13th of this month.

ances will also be given on the 13th of this month.

 inspection of the Biologicals Today.

FIRST TRIP OF THE
BIOLOGICALS TODAY.

Inspection of Brewery to Be Followed by Talk On Tuberculosis.

Today is a red-letter day for the Biologicals Society, as a most unique trip will be taken by its members—trip which has been the subject of much speculation among the Biologicals for some days past. Apparently, the trip will be a success, as an excursion to a brewery has been arranged. President Tolman himself, and Miss George, together with the society's members, will be present on the excursion.

The complete arrangements, as noted in the Wednesday issue of TECH, came as a pleasant surprise to the members.

For part, we will leave the Back Bay station at 6.02 P.M., for Mr. Reuter's brewery. It is to be especially noted that everything which interested this year will be presented, as the society is interested in the conditions the play unfolds.

HOCKEY GAME.

(Continued from Page 1, Col. 4.)

The lineup as was follows:

Kemp for MacLoud, S. Smith for MacLoud, Foster for Stucklen, Foster for N. Foster.

RIVER PLAY GIVEN.

(Continued from Page 1, Col. 1.)

The chosen play, its mixture of vigor, finesse, of achievements, and failure, was at one with the performance it received. Mr. Smith, who is a student playwright, scored the entire play, the world. Since his leaving, none of his plays has been bettered by Miss George and his name, and his work, are not known in the society.

In the commercial sense of the word, Mr. Carb obviously means Techece. The talk will be all the more interesting as Mr. Cleveland Floyd will illustrate it with his apparatus.

PRESIDENT'S ADDRESS.

(Continued from Page 2.)

His talk will be all the more interesting as Mr. Cleveland Floyd will illustrate it with his apparatus.

The talk will be the last time for the society, and the last trip of the society.

FOR DRESS AFFAIRS

One of the most important events in the Society's annual program will be the Dress Affair, to be held in the Union at 9 o'clock this evening. Many of the world's greatest scholars say that good tobacco helps the mind focus its faculties. It is true, where could you find a more delightful aid to concentration than the

REV. GIFFORD SPEAKS.

Tech men are indeed fortunate in having the opportunity of hearing the speakers whom the T. C. A. has secured for today. He is Rev. T. G. Smith, who was present here at Tech the last year. He has a splendid way of handling an audience as if he were talking to all the more interesting. His last year's speech on "Understanding the Times" is only "nearly as good" as his speech this year, which will surely be worth hearing.
