COMMUNICATION.

To the Editors of THE TECH:

We believe that it is most unfair, and therefore unjust, that only one poster shall be placed on a bulletin board in the Union. Arrangements are being made by the Chief of Police to handle the enormous crowds, and he promises to allow room for one poster.

Hoch.

Hurrath! Let joy be unconfined! Our many anxious hours will soon be over. Early and early Monday morning the greatest mystery of the ages will be explained before the eyes of the awed people. We have every reason to believe that the world will know "Was Ist Los?" The perpetrators of the crimes will be brought to justice and the world will avenge the wrongs of the past.

The Chinese night of the Cosmopolitan Club promises to be one of the most unique of the many delightful nights given by the society. Every song will be carried out along Oriental lines. The function will be entertain-ment for the whole school year. A very pretty cover has been designed in colors for the program, and the set of the room is one of the most successful sets ever given by the club, and hundreds of guests are present.

The Chinese night is the fourth of a series of national entertainments which the club has undertaken this fall. Each union presents a program typical of that country. The members of the faculty, the club members and their friends, and all the Chinese students at the Institute have been invited.

COMPETITIONS TO OPEN.

Tech Show Poster and Music Competition Opens Monday.

The music and poster competition for the Tech Show will open on Monday. There are certain regulations that must be observed. The size of the drawing must be 20 by 40 inches and contain every detail except the name of the artist. The entries will be judged according to the amount of workmanship and the uniqueness of the poster. The music competition will award the prize of $100 for the best number. Any man may submit as many songs as he desires, and one song is given by the society. Every entry accepted will be a consideration for the prize. The music competition does not close until after mid-year.

The music competition for the selected songs offers a great variety of choice. There are three or four that are particularly good, and for the latest in music and drama, it is hoped that all the candidates will be in attendance.

K. Roy Elected Captain.

At the meeting of the Architectural Society, which was held in the Pierce Building yesterday, the Course IV men voted unanimously in favor of the application for membership of the University of Michigan and the Carnegie School of Technology to the Interstate Regional Architectural Federation. The society is composed of the Architectural Department of the University of Michigan in the City and the Carnegie School of Technology in the City. The meeting was attended by all the members of the society, and the applications were read. The applications were read and the society is composed of the Architectural Department of the University of Michigan in the City and the Carnegie School of Technology in the City.

PROF. RICHARDS ILL.

Professor R. H. Richards, in charge of the Department of Architecture, was operated on last night at his home at 334 Elliott Street, Jamaica Plains.
