The Copley Plaza Hotel

The acme of cuisine and service at reasonable prices

Afternoon Tea served in the Sheraton Tea Room from four until six

Under the same management as the Plaza Hotel, New York.

P. M. Publicity Manager G. E. Whitwell Will Meet Competitors in Show Office.

Publicity Manager G. E. Whitwell will be in the Tech Show office today at that time to meet all those men plenty of time to plan and finish their drawings. Following the custom of previous years, ten dollars will be awarded to the successful competitor. Any student may turn in as many drawings as he desires.

The poster is to be done in two flat colors, black and white, the colors to be chosen by the artist. The drawing is to be twenty by forty inches, must contain the title "Tech Show" and the title, "Honey in Sight," with a black space left at the bottom for the insertion of the date and place of the performance. The idea embodied in the drawing should suggest the title of the show.

Publicity Manager G. E. Whitwell wishes all the men who are not in any way talented as artists to come around this afternoon and see him. If any of the men are unable to get around at this time a note addressed to Mr. Whitwell may be sent to the Cage, and another date arranged with him.

SENIOR PORTFOLIO.

Nominations for Committee Due Before Friday, 5:00 P. M.

"The Senior Portfolio Nominations Committee, consisting of A. W. Carless, R. E. Trull, '13, and R. B. Blake, '13, announce that all nomination for the Portfolio Committee are due at the Cage before Friday night, December 20, at 5 P. M. In account of the holidays all nominations must be in by that time. The ballots may be obtained at the Cage the first Monday after the vacation. The following Monday the ballots will be due.

Recognising the value of detailed knowledge of topographical mapping of the State of Kentucky, through the Kentucky Geological Survey, is co-operating with the United States Geological Survey in meeting the expenses of the surveys in the field. The map issued by the Federal Survey as a result of this cooperation is that of the Nortonville quadrangle, lying between latitude thirty-nine degrees, sixteen minutes, and longitude eighty-seven degrees, fifteen minutes, and eighty-seven degrees, fifteen minutes, and eighty-seven degrees, sixty minutes, in the western portion of the State. The survey was made by the Topographical Engineers Goodlove, Hailmer and Reiter, of the United States Geological Survey. In 1916, and the map is published on the scale of one mile to the inch, with a 20-foot contour interval. This map depicts every physical characteristic of the country, the contour lines indicating the various slopes of hill and valley and showing the altitude above sea level of all points. By various symbols all the works of men are also shown.

At the Legion Stanford University the coeds paraded in a formation back in the hills. Their costumes were rather—all, to new eyes al- lowed. Many fine points of the game were exhibited, but both sides were severely penalized for tackling.

The University of California investigators at La Jolla have unearthed a fossil skull 100,000 years old.
