It was announced last night that THE TECH, the Mechanical Engineer-
ing Societies, the Architectural Soci-
ey and the Naval Architectural So-
ity, had lost their representation on
the Institute Committee because of
non-payment of dues.

The ruling under which these activi-
ties lose their representation is as fol-
low: 1. As stated in the minutes of the
committee: "At the regular meeting of
the committee, February 10th, it was
moved, seconded, and passed, that all
activities having representatives on the
Institute Committee shall lose their rep-
resentation if their dues for the school
year of 1911-12 and 1912-13 are not
paid by January 1st, 1913." Hence,
great deal of trouble had been
experienced in trying to collect dues
from the different activities con-
cerned, and these drastic measures
were finally taken in order to better
conditions.

SHOW MANAGEMENT. (Continued from Page 1, Col. 2.)

It still reached, however, that
the Show was not established on a
sound basis, and that while it was
given by the student body, it was not
responsible to the student body. It
was further felt that the method of
perpetuating the Show management
was a great help to the management.
The Tech Show; that charges of
favoritism in appointment might:
be a great help to the management.

The Show management went still
further with their organization—the
Informal Advisory Committee—by
inviting the Alumni to aid in vis-
iting the Show and by cer-

WIRELESS MEETING.

Tomorrow evening a meeting of the
New England Wireless Society is to
be held in the Jefferson Physical
Laboratory at Harvard. Dr. M. L.
Pierce, an eminent wireless investi-
gator, is to address the meeting.
All men interested in the subject of
radio telegraphy are invited to attend.
Further particulars will appear in
Saturday's TECH.
