ANNUAL LUNCHEON OF ALUMNAE HELD

Women Graduates to Take Active Part in Memorial for Mrs. Richards.

The Massachusetts Institute of Technology Alumni Association, composed of alumnae of Technology, held their annual luncheon at the Union Saturday. The dinner was attended by President Maclachlan and Mrs. Maclachlan, Dean Burton, Prof. C. W. Doven and H. L. Seaver, and about 25 members of the association.

In the absence of the president, Miss E. M. Maclachlan, '14, presided. Prof. Doven and Mr. Seaver gave talks about their course at the Institute.

The luncheon was as follows:

10:30 A.M. Opening of meeting.

10:45 A.M. Speech by President Maclachlan.

11:00 A.M. Introduction of new officers by President Maclachlan.

11:15 A.M. Installation of Officers.

11:30 A.M. Luncheon.

12:15 P.M. Unveiling of portrait of Mrs. Ellen Richards by Miss Ada E. Babcock.

12:30 P.M. Presentation of $100,000 "Home Economics Fund" by M. Edward Maclachlan, '16, to the Association, intended as a memorial to Mrs. Ellen Richards.

12:45 P.M. Announcement of "Home Economics" courses at the Institute.

1:00 P.M. Closing of meeting.

PRELIMINARY TRIALS FOR 390-YARD TEAM

Coach Kanaly Announces Eight Fastest Men Out of Field of Twelve.

During the handicap meet on Saturday, the eight fastest men were selected for the 390-yard relay team. Twelve men took the trials, and although Capt. Kanaly did not announce the times, all seemed to be running very well, and doubtless the times were good.

The majority of the men finished very poor, but this was because of too fast a pace at the start. The men, then, are, as usual, in the trills.

The eight fastest men, arranged in alphabetical order, are: Barry, Bolton, Burton, C. H. Grandmaison, H. B. H. Graham, Reed, E. Rainey and Willis, Thomas.

The trials for the 390-yard team will be held Wednesday afternoon.

AMUNDESEN TO LECTURE.

Discoverer of South Pole Will Tell of Experiences.

Captain Roald Amundsen, the discoverer of the South Pole, is to give an illustrated lecture telling of his explorations, Tuesday evening, January 31, at Tremont Temple. Captain Amundsen is an explorer of world-wide renown, and his talk should prove not only highly interesting but very instructive as well. Only a few years ago Captain Amundsen completed his trip to the Pacific Coast of America by way of the Northwest passage. He is the only man who has accomplished this feat. It was during this voyage that he located and confirmed the position of the north magnetic pole.

Those desiring tickets may purchase them at the Union any noon before January 21, at Tremont Temple.

OPEN CLASS MEET.

Juniors Seem Likely to Repeat Their Victory of 1912.

As the time for the annual Open Indoor Intercollegiate Athletic Meet approaches there is an increasing amount of speculation as to the relative strength of the different classes. The Juniors, because of having won this meet last year, are favored, but any man may win.

The Institute should well represent as the Valiant, tall, and will be an opportunity. President Maclachlan will introduce the speaker.
