PRELIMINARY TRAVELS FOR TWO-MILE TEAM

Coach Kanaly Picks First Twelve Men at Trials Yesterday Afternoon.

Yesterday afternoon, in the Gym, we held the trials for the two-mile relay team. About forty men ran in these trials and four were selected. Besides those who took trials yesterday there are a number of others who will be tried at a later date. Among these is Bylund, a member of the team, who is expected to be one of the stars again this year.

The trials were run two at a time, which lessened the time for running them off, and caused the men to do better than if they ran alone. The trials were also of more interest to the spectators than when each man ran alone. Benson and Hill, who ran together, had a race of their own and made very good time. Huff was going good, and would have made excellent time but for the fact that he had an unfortunate fall at one of the hills. Aside from this there were no accidents.

Conchar Kanaly also announces that an east has been made for the second, and those whose names do not appear here are expected to continue in their work, as usual. The final trials will be held on Wednesday, January 25. Owing to the fact that the intercollegiate meet is to be held on Friday night of this week, we will not meet on Saturday afternoon, and the regular practice will be held.

MASSACHUSETTS INSTITUTE OF TECHNOLOGY

Boston, Mass.

The class in Knots and Splicing meets daily in the Phys. Lab at 4:00 p.m., and on Wednesday, from 4:15 to 5:30 in Huntington Hall, and on Friday, from 10 to 10:30 in Lab. 326. W. A. Stapples, Registrar.

WEATHER

Perfect for Boston and vicinity: Clearing and chilly. Moderate variable winds, becoming westerly and increasing.
