
Commencing tomorrow noon of this week, and lasting for four days, Tech graduates from far and near will assemble in New York to be present at the greatest reunion of Technological Alumni that has ever been held. The arrangement of place for the entertainments of the visitors will be conducted by the New York Alumni Association, and it will all be under the personal supervision of R. Hurst, A. A. A. A. A. A.

A program has been arranged that will keep the Alumni on the jump during the entire session.

Special trains will take members into New York from all parts of the country, and an expensive large meal will leave from Boston. Undergraduates are welcome, and prices have been made for a large number, but owing to the great length of the train, it is doubtful if many will attend. The Technology Club, 17 Gramercy Park, will provide a special place for all the entire session and everyone is requested to pay them a visit.

A price will be given for the man who comes the farthest to attend, and registrations have already been made from the remotest parts of this country. Some very well known men will (Continued on Page 2.)

CONCERT AT WOBCURN.

Tech Show Orchestra to Repeat Lowell Program Tomorrow.

Tomorrow night the Tech Show Orches
tara will give a concert in Woburn, under the auspices of the Woburn Medical Association. The concert given at Lowell last Saturday was so well received that it has been decided to give a series of concerts in the sub
