THE TECH, BOSTON, MASS., FEBRUARY 14, 1913

SECOND TERM T. C. A. DISCUSSION STARTS.
Many New Men Signify Intention of Attending Meeting
Recenly Changed.

The first discussion in the series of "Problems of a Thinking Man" will be held today, Friday, at 12:30 in the C. A. office. Many new men have signified their intention of attending this class, and it is probable that the place will be changed to some classroom in Stark B, which will accommodate all who wish to attend. If the change in class is necessary, notice will be posted on the door, telling where the class will be held so that any who come late for the meeting may not suffer inconvenience.

The T. C. A. is anxious to increase the attendance at these discussions and wants to make them of interest and value to all Tech men. They are in every sense of the word discussions, one man's opinion is as good as another's, and the aim is not so much to have an argument on to get a frank interchange of ideas, so that each man may have clear in his own mind his own attitude toward the fundamental problem taken up. Suggestions are always welcome.

The class Fridays at 1:30 is led by the T. C. A. secretary. Tallott also leads another class at 8:30 Fridays in his room at 40 Rutland square, which all are invited to.

It is hoped that more classes in the future may be able to accommodate as many as have so far attended.

M. T. Yours truly.
