COMMUNICATION.

To the Editor of THE TECH:

The Union House Committee requests the publication of the following report:

In order that the House Committee may secure the cooperation of the student body who patronize the Union in an effort to establish and maintain an air of a well-organized men's club, the following simple and practical code of manners has been drawn up:

House Rules.
1. The Union shall be open for the use of students from 8 A.M. to 11 P.M. Sundays, 10 A.M. to 11 P.M., under such rules and regulations as the House Committee may provide.

2. The House Committee reserves the right to prohibit any or all of the Union's activities to any persons as may apply for their admission. No service at the Union shall be considered open to all persons.

3. The playing of cards or other games may be limited to the card room provided at the Cage at least 24 hours in advance of proposed occupancy.

4. The furniture of the various rooms shall be interchanged only by permission of the House Committee.

5. The books of the Library shall be returned to the Cage at the time of any change of residence.

6. Any destruction of or injury to property shall be paid for by the person or persons responsible, or in the event of recklessness, the amount to be paid shall be determined by the House Committee.

7. In order to systematize the allotting of rooms and to keep a permanent record of all the various uses to which the rooms are put, application shall be made on blanks supplied at the Cage. In addition, the House Committee keeps on record on the bulletin board a monthly circular showing the disposition of rooms.

8. The House Committee takes the stand that each room of the Union shall serve a specific purpose. In the event that the houses who spend their spare hours at the Union are a majority of men for thereby social purposes, the main room is to be used for them. Men would be glad of an opportunity to study. Unexisting conditions are not attempting to do any studying at the Union are not to be made a pretty poor place for it. To provide a place where such work may be efficiently done, the main room on the second floor, added with its tables, has been made a reading room, and men wishing to play cards or other games will find the north room, with its tables, at their disposition. The committee feels that it will be supported by the majority of those who patronize the Union in its views, that the present tendency is to make the entire second floor a fourteen-hour-a-day bridge parlor

9. Be beneath the dignity of an institution-at least it has been the Rev. Stebbins' endeavor to make it whether men are engaged, for Rev. Mr. Stebbins does not see in the criminal a hopeless case, but rather an opportunity to lend a helping hand to make a man and put something into life. As chaplain he has constantly borne out this policy, and a trip through the prison or the relation of some of his varied experiences will be convincing that he has not labored in vain.

10. The State prison is in itself a most interesting institution, and we are proud of our own. The prison is, in fact, an educational institution-run at least in part by the State prison in Charlestown, is the State prison in itself a most interesting institution-at least it has been the Rev. Stebbins' endeavor to make it so, and men are engaged, for Rev. Mr. Stebbins does not see in the criminal a hopeless case, but rather an opportunity to lend a helping hand to make a man and put something into life. As chaplain he has constantly borne out this policy, and a trip through the prison or the relation of some of his varied experiences will be convincing that he has not labored in vain.

To the Editor of THE TECH, the Union House Committee recognizes as just this tendency to make the entire second floor a fourteen-hour-a-day bridge parlor, in the Union in its views, that the present tendency is to make the entire second floor a fourteen-hour-a-day bridge parlor, in the Union in its views, that the present tendency is to make the entire second floor a fourteen-hour-a-day bridge parlor, in the Union in its views, that the present tendency is to make the entire second floor a fourteen-hour-a-day bridge parlor, in the Union in its views, that the present tendency is to make the entire second floor a fourteen-hour-a-day bridge parlor, in the Union in its views, that the present tendency is to make the entire second floor a fourteen-hour-a-day bridge parlor, in the Union in its views, that the present tendency is to make the entire second floor a fourteen-hour-a-day bridge parlor, in the Union in its views, that the present tendency is to make the entire second floor a fourteen-hour-a-day bridge parlor, in the Union in its views, that the present tendency is to make the entire second floor a fourteen-hour-a-day bridge parlor, in the Union in its views, that the present tendency is to make the entire second floor a fourteen-hour-a-day bridge parlor, in the Union in its views, that the present tendency is to make the entire second floor a fourteen-hour-a-day bridge parlor.
