FRESHMAN TEAM MEETS SOPHOMORES TONIGHT

Important Basketball Game to Be Held in Gym—Close Contest Expected.

Tonight, in the Gym, at 8 o'clock, will occur the first basketball game between the Freshmen and the Sophomores, for two rounds, the first game. All the men showed good speed, and the passing was of excellent character. The Freshmen team is made up of former high school stars, and is one of the finest teams which ever represented a Freshman class.

Capt. Desson is a very aggressive player and a good shot. Although rather short for the position of center, he has a good spring, and is a fast player. He played for the Dakota High School team last year. Metcalf is the best forward on the team, and he led the Sophomores for two years as captain of the North Adams High School team. He is also the forward position, and is a very good defensive player.

After Freshmen left the floor the Sophomores were divided by Capt. Desson, and two rounds, the first game. The second was a much faster one, and although it was a good game, the Freshmen proved wrong, the passing and team play being better. Scully and Capt. Desson made the forward positions; both are fast men, and Scully is probably the better of the two. Green, another strong player, plays the center position, and is a fine center man, with lots of snap. He is also the best rebounder of the first team, and the center of the two of the team. Capt. Desson is a very strong player, and is also a good rebounder. O'Brien is one of the guards, and only displays strong defensive power, but also the same speed which he shows upon the track. He is also a good shot. Wilson has been playing guard, and is a fair player in all departments of the game. The other forward is Monticello, a recent addition to the squad, because of his rare combination of speed and speed and his extreme production. The day's work will be very interesting, and a probable lineup as announced by the captains of the respective teams is:

Reports of results for the week ended December 2 showed 725 points scored, December 3, 365 points, same week last year, 8901 points.
