Rifle Team Doing Well This Year

Loses But One of Seven Matches—Shoot to be Held With Pennsylvania.

The Technology Rifle Club has been doing remarkably good work recently. It has played seven of its scheduled matches, and has thus far lost one. Of the other six matches five have been won, while the results of the sixth have not yet been reported. The only team to defeat our was that of Princeton University, and in this case the score was 999 to 915. The club's officers say no reason why the team should not continue in the same form in which it has begun, and if it continues its good work the chances are that it may win the league championship.

The one event, if any, that will send to weaken the Rifle Club's term is the withdrawal of President Rudolf from the club. Mr. Rudolf has been a member of the club for four years, and for two of these has been its president. He has likewise held the club championship for the past two years, and his presence will be sadly missed, especially in the long-range work.

A special shoot will be held in the very near future. Although the University of Pennsylvania was omitted from the National Rifle Association's Eastern League, we have arranged a game with them, and from all that is known at present we seem to have the stronger team of the two.

From the complete returns up through the fifth shoot the Institute stood fourth among the fourteen private parties. Praise

"His praise is lost who waits till all commend." Of the many who smoke it, there are few who do not sing the praises of Velvet

Get a pipe—and join in the chorus. It goes like this—"Such tempting fragrance, such delightful richness, such satisfying smoothness was never known before."
