SUPERVISOR WANTED.

SECRETARY TALBOT of the T. C. A. announces the need of a man at the Cambridge Neighborhood House to take general charge of the Institute. This is an excellent chance for a man who has a little experience in settlement work. The position carries with it no lodging at the house, and the only return asked is that he act as supervisor. Any man interested in this opportunity can secure definite information by applying to L. R. Talbot.

THE TECH SHOW WANTS FRESHMAN ASSISTANT.

COMPETITION IN STAGE DEPARTMENT TO BEGIN TOMORROW AFTERNOON.

For competition for Assistant Stage Manager of Tech Show, 1913, will be held tomorrow. This competition is the last of those held by the Show for positions in the managing department, and it is a final chance for all Freshmen who wish to come out this year. Manager C. P. Blake will meet all those interested in this activity in Room R, the Union, at 4:15 Friday afternoon. He will outline the duties of the Assistant Manager and give any other information desired by the men.

There are three men in this department, a manager, an assistant manager, and a second assistant. The last of these positions is to be filled by the competition to be held tomorrow. The stage management has charge of the actual staging of the Show, so that its work is most interesting doing any department by any member of the Association team refused to deal with the final picking of the cast and chorus.

The work of assistant consists mainly in taking attendance at rehearsals, keeping track of the prop- and making himself generally useful. If an assistant does good work he is likely to be made manager of the group for the next year, with a chance of being appointed general manager in his next year. The stage department has charge of the trips at which it is responsible for all the men and stage accessories connected with the Show. This competition is intended principally for Freshmen. It offers the best opportunity to men to become members of the management of Tech Show, 1913, as all other departments are complete, and no chance of joining them will be open until next year.

BASKETBALL GAMES.

(Continued from Page 2, Col. 2.)

Brockton seemed unable to locate the basket during the first half and took all sorts of fly shots. By close and careful playing during the latter part of the game they were able to come out on top. A basket scored by Rusk near the close of the game was disallowed by the referee under the rules with which they were playing. As the Association team refused to continue unless the score was given them, Captain Williams gave them the poitlts.

Brown, at right forward, located the basket on several difficult shots and played a consistent game on the floor. Paterson, last year's Varsity basketball star, played left back for Brockton and did not display his former form. Sherban and Pitcher played a steady game, the former scoring two goals. Baldwin, who replaced Sherban, showed a burst of speed for the short while he played.

Bryant, at left back for the Juniors, put up the best game of the evening, rating two baskets from the floor, some of which drew boos of applause from the crowd. Coober, last year's captain, showed some of his former speed, playing a strong game at all times, and scoring a few baskets by brilliant shots. Williams played a good defensive game, and so well, at the last, showed occasional good work but lacked speed. At center, Fox showed good head work, his point who played this position in the last half, was slow on the floor.

The Summit is postponed until next year.

BROCKTON Y. M. C. A., 24; R. Talbot, Friedman 1, Baldwin 1.
