Our Spring Suits and Overcoats will be ready early in February also.

NEW CLASS ORGANIZED.

The theme is one of rather unusual interest, for its broadsheet will be of a number of important references to various phases of the general topic. For the past twenty-five years Mr. Abrahams has done work among the laboring classes, and it is the study of those workers that is important to the engineer. Very often an engineer has difficulties with his gang of workmen which might easily have been avoided if he had had a previous knowledge of their peculiarities. This is the first time that Mr. Abrahams has spoken here, and he is one of the most popular of T. C. A. speakers.

FRESHMAN TRACK.

The meet scheduled to take place this afternoon at 3 o'clock, between the freshmen and Boston College.

Fatten Genius and you kill him. Pass him the Velvet tin and you open up the springs of inspiration.

It’s a dull wit that does not brighten in the glow of this choice tobacco. Here is a tempting fragrance, delightful richness, satisfying smoothness—unmarred by even a trace of bite or burn.
