CERCE FRANCAIS.

(Continued from Page 1, Col. 3.)

A large number of young people are to be expected on the hill of the Tech today, and the French language is the language of choice for most of them.

An object of interest to all technologists is the French Assembly, which meets in the main hall of the Tech. The meeting will be held at 2:00 p.m., and will be open to the public.

TALK ON BUYING AND TESTING COAL FRIDAY.

The Chemical Society to have a meeting on Friday night, at which Mr. H. W. Butler will speak on the subject of coal. The meeting will be held at 7:00 p.m., and all members of the society are invited to attend.

START YOUR TECH YEAR RIGHT.

Your equipment for the year is not complete unless it includes the Oliver Typewriter, Model Number Five.

Regardless of the work you may take up after you leave Technology, the Oliver Typewriter will be a necessity. Why not take advantage of the opportunity to get the Oliver while you are studying? It is cheaper to do your own typing than to hire a stenographer.

You can RENT the Number Five Model Oliver at the rate of $3.50 per month and when you have paid twenty consecutive months' rental, The Oliver will be presented to you without further expense.

SPIRIT STILL UNCAUGHT.

(Continued from Page 1, Col. 1.)

Mr. H. W. Butler has written the RUMOR has been seen several times and has manifested considerable activity. It is now becoming violent, overturning chairs and tables, and attacking meaningless inventions of the typewriter age. One of the sentences which he publishes for the benefit of such students as are interested in solving the mystery is as follows: "Wear your heart in size."

This spirit has been praised over this manifestation of mysterious power, but can make nothing of it further than that it may contain a warning to wear protective clothing of some sort—probably on March 4. A later sentence which shows among other things that the RUMOR is learning to type in a more legible fashion in: "Five + Mexico rush."

Just what the meaning of Mexico may be at this point in the career of that nation cannot be deduced before the topic is discussed.

The staff, however, has arrived at the conclusion that the "five" is some significant words of some sort.

They believe that the "five" may refer to the number of things which may be expected on March 4, and that the "Mexico rush" is an indication to the students to wear protective clothing referred to in the first sentence as soon as possible.

They would be glad of any suggestions which members of the "five" may give them with which they may have worked on the mystery of forty-eight hours without food, drink, or sleep, and are beginning to get a triffe "peered."
