DESCRIPTION OF NEW TECHNOLOGY GYM

To Contain Cinder Track, Trophy Room, Swimming Pool, and Gymnasium.

It has always been the policy of the Institute to give a course in physical education that will aid the students in the cultivation of their physical strength and sound body with which to face the labors of later life. Therefore it is important that the gymnasium be built to the very best advantage possible. To obtain this result the gymnasium should be at one and the same time a physical laboratory at the other end.

Furthermore, the Institute is growing, and provision for this growth must not be neglected in the gymnasium. Generous accommodations must be made for all branches of physical education that will aid the student to give a course in physical education of the highest order.
