INTERESTING MEETING.
Institute Committee Will Discuss New York Trip.

The questions of the Tech Show trip to New York, which was brought up at the Institute Committee last Wednesday, seem so important that the regular March meeting is to be held today at 4.15, in S. Reg. C. A New York trip would be a new feature in the Show schedule, and would be a good thing for that activity if it could be successfully carried out.

The matter was discussed, and it was decided not to push the trip.

At the next meeting for the Walkers Memorial across the river will also be considered. We will be able to handle the matter if we have requested to present the feature, and we will be able to present it.

The Tech advisory Council submitted a report containing a statement of the plan of the man who was named in the paper, and will make some recommendations which should interest the men on the Board of Directors. The next meeting is to be of especial interest because it was promised to be an attendance de-

SHOW PERFORMANCE IN NEW YORK CERTAIN.
To Be Given in Hotel Astor—Many Seats Already Signed Up For.

At a special meeting of the Institute Committee, held the other afternoon, the plan of Tech Show, 1912, for the New York trip was officially approved.

For the past four years it has been the dream of the management to give a New York performance of Tech Show. Last year, under General Manager Wishing, a most decided effort was made in this direction, but the support of the alumni was not sufficient to permit such a venture. For more than the idea was laid on the table for consideration by this year's committee.

Early in September of last year, General Manager looked up the matter with Manager Muschelheim of the Hotel Astor in New York, and they found an arrangement which they desire to try and remember what he said for
