New Constitution to Be Acted Upon—French Play Will Be Started Thursday.

The new Constitution will be acted upon at first, all the members are important business which is to be discussed at the first meeting of the society for the year. The Cercle Francais will hold the second meeting, on account of some plans for the coming year which will be discussed on Wednesday, March 19.

IMPORTANT MEETING OF "CERCLE FRANCAIS"

The first event was the 35-yard dash. Smith, ’15, won the heat with a time of 40.3-4 seconds. As was decided upon at the first meeting, the meeting will be conducted in French and inDEST is to be present.

As originally planned, the club will act on the lines of a regular program, and on account of some plans for the coming year which will be discussed on Wednesday, March 19.

DOCTOR GIFFORD TO GIVE T. C. A. TALK

"God’s Building" Subject for Popular Speaker Next Thursday.

The T. C. A. has been fortunate in securing Dr. O. V. Gifford for its regular speaker. Thursday talk this week. As many of the students know, in Gifford is one of the most progressive ministers in Massachusetts. He is editor of the Livelihood work, and is also very well known for his opposition to the propagation of State money for the support of church schools.

Dr. Gifford’s first talk to T. C. A. was given a year ago last Fall, on the subject, "God’s Building," which was highly appreciated by all who heard it. Many of the fellows enjoyed it so much that they asked to hear the Doctor again. Since then he has given two more talks, each as successful as the first. The Doctor has said that Thursday’s speech will please all who hear it. There is no need of urging the men who attended Dr. Gifford’s previous talks to be on hand for this one, and the others should think twice before they let slip an opportunity of hearing such a popular speker.

The subject this week is "The Building," but experience has shown that the Doctor will have some surprises in store for his letter sedent’s and those who come to hear his talk. As he is famous for his epigrams we can certainly predict a large supply of clever sayings.

KEEP YOUR PRELIMINARY THESIS NOTES NEAT AND READABLE

While fresh in your mind. It is hard to read some of those scratchy notes after the ink grows cold. What solutions?
