ELECTORAL COMMITTEE HOLDS FIRST MEETING

L. C. Hart Explains Details of Work—To Meet Again Next Friday.

The first meeting of the 1913 Technical Electoral Committee was held yesterday afternoon in 21 Rogers, under the presidency of L. C. Hart, Editor-in-Chief of the Technical Review. The purpose of the meeting was to discuss the need of Freshmen for the class of 1913. After considerable discussion, it was agreed that the committee should hold frequent meetings, at which time the officers of the society would be given the opportunity to discuss their qualifications and the qualifications of the candidates.

CHEMICAL SOCIETY.

Talk on "Scientific Management" to Be Given by Prof. Passano.

Next Friday, at 7.45, the members of the Chemical Society will be given an unusual treat. Professor Passano, who has been making a study of scientific management, has consented to present to the society some of the results of his work. He has obtained very good results in this line, and the announcement of the lecture will be of great interest to all members of the society.

FRESHMAN MEETING.

The members of the Board, the members of the Athletic Committee, and the members of the Freshmen's Committee are to be given an unusual treat. Professor Passano, who has been making a study of scientific management, has consented to present to the society some of the results of his work. He has obtained very good results in this line, and the announcement of the lecture will be of great interest to all members of the society.

CLASS BASKETBALL.

(Continued from Page 1.)

The game ended with the Sophomore team winning by a score of 31 to 20. The Sophomore team was led by the Sophomore captain and the Freshman team was led by the Freshman captain. The score was 31 to 20 in favor of the Sophomore team.

Next Monday afternoon, at 3:10 o'clock, the Mechanical Engineering Society will hold a meeting in Room 11, East C. The feature of this meeting will be an illustrated lecture by Professor J. N. Hollis of Harvard, on "The History of Steam Engineering." The professor is expected to be present and will give a talk on "Evolution." This is to be his third and last talk at this time, and it is expected to be even more interesting than either of his other two. Professor Passano has been a member of the society for the past two years and has been very active in its affairs. He has obtained excellent results in this line, and the announcement of the lecture will be of great interest to all members of the society.

TALK ON "EVOLUTION."

Fr. Cusick to Address Students at Catholic Club Dinner.

Tonight, at 6 o'clock, the Catholic Club will hold its regular monthly dinner in the dining room of the hotel. Fr. Cusick, as speaker for the evening, will give another talk on "Evolution." This is to be his third and last talk at this time, and it is expected to be even more interesting than either of his other two. The officers of the society cordially invite all men who are interested to attend this talk, especially those who have heard his previous talks. Tickets may be obtained from the officers of the society, the price being twenty-five cents. It is expected that the talk will be attended by a large number of people.
