LIFE MEMBERS OF CORPORATION CHOSEN

Everett Morris, William Reddick and Theodore N. Vail Now Life Members.

Yesterday afternoon the Corporation of the Institute held a meeting to fill certain vacancies in its membership. Three men were elected for life terms, and three for five-year terms. A new office for the Corporation was created, and a man elected to fill it.

The man chosen for life was Ernest M. M. 85; William Reddick and Theodore N. Vail. Mr. Morris has just completed a five-year term on the Corporation. He is of the firm of Morris & White Co., president of the Simplex Electric Co., and is on the audit committee of the General Association. Mr. Reddick is a member of the firm of Rider, Peabody & Co. It is a curious fact that Mr. Reddick's father was also a life member of the Corporation. Mr. Vail is president of the American Telephone and Telegraph Co., an organization recent in technology, and has promised another fund for electrical research. These men fill the open seats, leaving the corporation, as decreased; C. G. Jackson, resigned, and Senator Cameron resigned, deceased.

Those who are to serve five years are the following: Mr. Howard Gilbert, '86, is former president of the American Institute of Architects, a member of the Council of the National Academy of Design, and Honorary Corresponding Member of the Royal Institute of British Architects. Charles Harding, '94, is of the firm of Banker, Hayden, Stone & Co. A director of the Silvertown Bank, and director of a number of other important companies. Charles T. Milne, '78, is engaged in the design and construction of industrial plants. He has served in all the (Continued on Page 2.)

SANGER MAKES CUT IN TECH SHOW CHORUS

Costuming Begins—Show Music Tried Out by Members of Cast and Chorus.

Yesterday afternoon a little excitement was caused at the meeting called to order by the appearance of a young lady from the costume department. She came in to measure the men for wigs, and the actors found it exceedingly difficult to stand in line and await their turn. Besides the costumer's work, Orchestral Sanger made another cut in the chorus. Following is the list of those retained:

Men's animal. This is to be an annual. H. W. Miss McConnaughey conducted a rehearsal of the cast in which was the problem of the actors in working on their songs for the first time since this year's show started. Miss McConnaughey will conduct a rehearsal of the show orchestra, together with the chorus, on Saturday, from 2 until 5 o'clock.

A cast rehearsal of the first and second acts will be held today at 4:15. All men in the cast and chorus who were not measured for wigs yesterday must be on hand at this time.

MASONIC MEETING

Club Will Hold Dinner in Union Friday Night.

Tomorrow evening at 6 P. M., the University Masonic Club will hold a dinner in the Union. The program for the evening will be as follows:

1. The speaker of the evening will be Dr. A. A. Holmes, a well-known Mason. He is a man whom it is believed every Mason will desire to meet.

The secretary, Mr. L. L. Dowling, requests those who intend to attend to let him know immediately so that the proper arrangements may be made for the dinner.

HOCKEY TEAM DINNER

The members of the hockey team are to hold a dinner tonight at 6, at the American House, to elect officers. All those attending the meeting will attend the performance of "Ready Money."

The one hundredth anniversary of the evolution of logiterns, by John Napier, a Scotchman, will soon be celebrated by all mathematicians. The meeting was held in the United States on November 5, 1614. The country was sent out by the book treating of the theory of logarithms. It was published, but was rarely found, dated thirty hundred years ago. The book was the original of this scheme for the use of logarithms.

How about the clock with the hall- bearing feet?

FATHER CUSICK CONCLUDES TALKS

Discussion of "Evolution" Finished at Catholic Club Dinner Last Night.

Last evening the Catholic Club had its usual monthly dinner, after which Rev. Father Cusick concluded his series of talks on "Evolution." A very large number attended this meeting and enjoyed not only the dinner, but also the interesting conclusions made by Father Cusick.

In his introductory remarks, Father Cusick told how, in his previous talks, he had assigned four meanings to the word "Evolution," and how three of these had been rejected. The first of these, known as Darwinism, or the theory of natural selection, was not rejected by Catholics because it was opposed to facts, and that in itself it was immoral and that it outrightly denied the existence of God. The second interpretation was condemned for the reason that it was immoral and that it outrightly denied the existence of God. The third interpretation of the word "Evolution," which was found in literature, was that of man's immortality, or the evolution of man into a higher being. This theory was not supported because it was based on proofs which were proved to be not facts at all. A certain soul, together with a few other bones, was supposed to supply the missing link between man and his supposed ancestor, the ape, but modern science has clearly proved that these bones are not those of a form intermediate between man and the ape.

The fourth meaning, immortality (Continued on Page 2).

SOPH. BASEBALL

Practice This Afternoon in Gym—All Out.

The Sophomore baseball team will hold its second practice of the season this afternoon in the Gym at 3 P. M. Nineteen men reported last Tuesday afternoon for the first practice and the outlook is good for turning out a championship team. The last game played against the Boston College High School was won by the Tech, and it is expected that there will be more men in uniform today. Practice will be held regularly every Tuesday and Thursday at 3 o'clock, and work will take place at the Field when the weather permits. Six battery candidates reported and other good material for these positions is known to exist in the class.

NO MEET YESTERDAY.

Boston College High Falls to Look at the Gym.

The Boston College High School track team failed to show up at the Tech track meet yesterday afternoon, and consequently there was no meet. All of the 1916 men were on hand, and were frequently there was no meet. All of the track team failed to show up at the plus of the season Tuesday Night. Practice will be held regularly every Tuesday and Thursday at 3 o'clock, and work will take place at the Field when the weather permits. Six battery candidates reported and other good material for these positions is known to exist in the class.

"GOOD'S BUILDING," BY DOCTOR GIFFORD

Brookline Pastor to Speak Once More For T. C. A.—Today in Union.

The T. C. A. speaker for today is Dr. O. P. Gifford, pastor of the Brookline Baptist Church. This selection is a very wise one indeed, and the talk is likely to be one of the most interesting of the year. Dr. Gifford is reputed to be one of the most gifted preachers in Massachusetts, and has won great reputation through his strenuous opposition to the appropriation of State money for the support of church schools.

Dr. Gifford is already well known to the regular attendants at the T. C. A. galls, as he has spoken previously this year. His first talk, "A City Without a Church," was highly praised by all those who were present. Indeed, the fellows were so well pleased that numerous requests were received to have Dr. Gifford speak once more at one of the regular Thursday noon meetings. Consequently he was asked to give several more talks, two more of which have already been delivered, both were well prepared, and were highly appreciated by the audience. The subject taken by the Doctor is "God's Building," which is a very great subject, and one which can be treated in a number of ways. However, Dr. Gifford has promised that his treatment will be one well worth hearing. Great hardships are expected, and also a large number of epigrams, as the Doctor is famous for the latter. The talk will begin promptly at 1:50 in the Union.

HARE AND HOUNDS' RUN

First Spring Chase to Be Held Saturday at Newton.

The Hare and Hound Club will hold their first Spring run Saturday afternoon of this week, starting at the Newton Y. M. C. A. It is expected that a large number of men will be out for the run. The weather promises to be about as fine as it can be for a run in the country, the wind being a gentle one, about five miles in length. The weather will be fair and mild.

The train for Newton will leave the Trinity Place Station at 2:09. All men who expect to run are requested to take this train.

WEATHER

Forecast for Boston and vicinity: Thursday probably with slight change in temperature; moderate variable winds.

CALENDAR

Thursday, March 13, 1913.
3:00—Sophomore Baseball Practice—
Hare and Hounds' Run.
6:00—Hockey Team Dinner—American House.
