WRESTLING MEET AT MILTON TONIGHT

Tech Team Wrestles With Cunningham Gymnasium—Last Meet of Season.

Tonight the Tech wrestling team goes to Milton for a meet with the Cunningham Gymnasium team. There will be six events, and as this is the last big meet of the season the team wants a good bunch of rooster to go along and make some noise. The Tech men to be entered are as follows: In the 115-pound class, Spade; in the 135-pound class, Mattin; in the 146-pound class, Kelly; in the 160-pound class, Morse and Kinnon; in the 175-pound class, Frost. All of the men are fast wrestlers and the Tech has very good chances of coming through. There will be much interest all the way through. The admission is twenty-five cents.

MECHANIC ARTS TO MEET.

Members of Club to Hold Second Smoker of Year Tonight.

Tonight the Mechanic Arts High School Club will hold its second smoker of the year at 7:30. The club is to be disbanded, owing to lack of students and importance of this undertaking. These fellows must ask themselves: "Wouldn't we feel ashamed to have it known that our athletic teams had to be disbanded, owing to lack of student support and encouragement?" Think of the new Institute across the river, and all its plans for fine athletic facilities, and think of how well we might have been if we could have had teams under these conditions that could have succeeded with the strongest teams in the country. The present Athletic Association is striving to afford the possibility of competing on the fact that our team is thus far down in their hearts the students who are hungry for success. They are already anxious to do what they can to turn these efforts from the Tech course into a big success. Nevertheless there are those great odds that something must be done if provided, which will be awarded to the most successful contestant. There is a just a little more talent in the crew club and the members are looking forward to this part of the program with great expectancy.

The purpose of the business meetings is to make arrangements for the final banquet of the year. It has always been the custom to foretell all the members of the Spring banquet of the year. It has always been the custom to foretell all the members of the Spring banquet of the year. It has always been the custom to foretell all the members of the Spring banquet of the year. It has always been the custom to foretell all the members of the Spring banquet of the year. It has always been the custom to foretell all the members of the Spring banquet of the year.

Ladies and Gentlemen are invited to the TechSmoker, the second banquet of the year, that will be held at the South Station at 8.00. The Tech men who are in Boston and the Latvia promise to be full suits of the May and Alexander; in the 158-pound class, Sayer; in the 125-pound class, Secrest; in the 115-class, Johnson; in the 100-pound class, Beer.

CREW STARTS WORK.

Practice on the Basin Every Afternoon at Four O'clock.

The first outdoor practice of the season was held yesterday on the Basin by the B. A. A. Boat Club. On account of the heavy sea that was running, none of the vessels were launched. Commodore E. C. Gere took charge of this practice and the members were looking forward to this part of the program with great expectancy.

The shell which belongs to the M. T. Boat Club is undergoing repairs, the men used one of the B. A. A. four-oared shells. The men made a very good showing as far as could be judged by their first workout under unfavorable weather conditions. The following men rowed: Berkowitz, Gardner; in the 158-pound class, Sayer; in the 125-pound class, Secrest; in the 115-pound class, Johnson; in the 100-pound class, Beer.

HARE AND HOUNDS.

The Hare and Hound Club will have regular practice on the Tech course during the week. The members are to leave the Trinity Place Station, at 4.30 sharp. The cross-country race this coming Saturday will be run on the Tech course, so that the practice is to be run on the Tech course, so that the practice is to be run on the Tech course, so that the practice.

A FRIEIND IN NEED

is a friend indeed. Our plan not only makes you save money, but furnishes ready money when needed.
