There is every possibility of changing in voting on the new Constitution. It will be the ultimate result.

Whether the constitution shall or shall not solves itself now into a question of tend to.

They are placed in the hands of the reverse side of the ballots when intelligent criticisms may be made on the wrong side of the ballots.

The class organization in this department of the game is under consideration.

If the men are used to real playing and are not used to the feeling of nervousness, the game is usually felt by even the most seasoned players at the first game. To the Editor-in-Chief of THE TECH:

Dear Sir:

Because of financial difficulties, last fall, it became necessary for the Cross-Country Team to pay back the majority of the men it a private fund at the last minute. It is hoped that this team will be able to pay the balance of its expenses.

The fund is now ready to pay the expenses of the team. It is hoped that this will be possible.

Yours truly,

Alfred F. Nyo.

COMMUNICATION.

To the Editor-in-Chief of THE TECH:

Dear Sir:

Quite recently Professor Lawrence has started the custom of locking the door to his lectures in fourth year, Course VI, at five minutes past the hour, which seems very unjust, as he is not only treating the seniors as children, but also those who may be delayed a few moments while talking to some professor about their work, or whose train may be a few minutes late, is deprived of a full hour's instruction rather than a few minutes. The students do not object to being given in late, quietly, and it seems to me that they are the ones to object, as they, in a sense, hire the professor and are paying the money for the purpose of receiving instruction.

Professor Lawrence is called frequently, himself, late to recitations anywhere from five to ten minutes, and no one objects as all realize that he has many important things to attend to.

In truth, therefore, the wish of many of the seniors that this "lock out system" be discontinued.

Student.
