APPLICATIONS FOR SCHOLARSHIPS DUE

Sophomores to Play First Game Saturday

Opens Season at Allen School —Line-Up of Team Decided.

The Sophomores will play their first scheduled game on Saturday when they meet the strong Allen School team at Newton. The team has had two hard practices this week and is right on edge for the game. For the past three weeks the team has been mainly practice in fielding and batting, with a short game with the second team. The fellows have been keyed up by those games and feel confident that they have a good chance of being the victors on Saturday. Sears, Dohme and Delano seem to be the stars of the candidates for a pitcher. Although Captain Caffrey thinks there is little chance between the two men, he intends at present to start off with Sears. Langdon, one of the promising men who have come out recently, will probably be given a chance to show the quality of his work at this time.

T. C. A. TALK.

(Continued from Page 1.)

In respect to labor troubles in Europe differ from those in this country, the employers have the sympathy of the general public and their side is not often represented. One of the objects facts connected with the subject of the low wage is that the unskilled laborer is in most cases only worth what he gets, and it would be business suicide for the manufacturer to raise their wages. The labor union leaders are ever contending for in many cases they are making up the losses.

Communications refer to insufficient, economically, have great possibilities, and this is evidenced by the phenomenal success of the second generation, for in many cases they are making up the better class of today.

To come down to possible remedies to relief the situation, it must be evident that it is a human problem after all and only one way to solve it is to deal with the individual. The first thing that is needed is an educational cleaning out process, which will take much time. It is the especial function of the country to lead the world in this change for the better and the ideal, and which causes the entire civilized world to focus its eyes on the United States in order to see what we are doing to solve the solution of the labor problem.

COMMUNICATION.

To the Editor of THE TECH:

Dear Sir—A short time ago I was caused a great inconvenience, due to the following circumstances: A certain party, desiring of reaching me at the Institute by phone, left an important message for me at the "Cage," due to some misunderstanding, caused me no little inconvenience, and I do not doubt that other fellows have been in a similar case. So I beg to suggest a little remedy which I think would tend to reduce further trouble in this respect. Could not the Union Committee post a small bulletin board in a conspicuous position in the vestibule by the name of "Cage" and place upon it, under the heading:

"Phone Message at Cage For...

The names of any persons who chance to receive telephone messages in this way, could be appended in such arrangements shortly, for I am confident that many fellows would thereby be benefited from time to time. I shall be grateful if you will favor me with your communication with space in THE TECH.

Very truly yours,

M. W. L., '12.

SOLICITATIONS TO BE HONORED

Must Be Filed Today at Office.

Today is positively the last opportunity for candidates for a scholarship for the ensuing year (except a State scholarship) to hand in their applications blanks at the Registrar's office. With the name, state the class, course (scholarship), to hand in their applications blanks, which are furnished at the State House, before the first day of July. While the State Board of Education has full control of the award of the scholarships, it is advisable for all students intending to apply for these to notify the Registrar to that effect and to have their站着 endorsed. Solicitations to Be Honored
