TECHNIQUE 1914 MAKES ITS INITIAL APPEARANCE AT BIG RUSH

This year's Book to be Unique in Many Features

New Departments, Interesting Articles, Side Splitting Grinds.

The work of this year's Technique board is now practically at an end for today they present the editors to the student body for their approval. The members of the board have worked this day with impatience, for they are anxious to turn over the class to them, where they are responsible, a book which the public will please to observe. The increase in size has been caused by completing much of the work during the summer vacation, and consequently they were not forced to hurry. The general style of the drawings shows more forcibly than words can tell, that time was not considered when the art work was being done.
