JUNIOR FROM VERY ENJOYABLE AFFAIR

Hall was Beautifully Decorated With Evergreens—Elaborate Supper.

Friday evening, in the Hotel Somerset, was held one of the most enjoyable Junior Proms that have ever been given.

The hall was tastefully decorated, and the entertainment given the guests was greatly enjoyed by all those in attendance. There were eighteen dances, the last of which was given at 1:00 a.m.

The music, which was well selected, was furnished by Mrs. Woodbridge’s Orchestra, which was located in one of the wings.

The maids were Mrs. C. M. Mattson, Mrs. Charles G. Mixter, Mrs. James Lane, Mrs. Charles G. Worthen, and Mrs. George Wiggins.

M. E. SOCIETY TALK.

Mr. I. E. Moulthrop Spoke On “Power Plant Difficulties.”

Monday afternoon, at 4:10, in 11 Engineering B, Mr. I. E. Moulthrop, the Mechanical Engineer of the Edison Electrical Plant, gave an informal talk before the Members of the Engineering Society. His subject was “The Difficulties in Operating a Power Plant,” which will be selected for the especial benefit of the Seniors, who are now making a study of flowing water.

Some of the points taken up were the difficulties in the arrangement of the economizer, the characteristics of various types of automatic control for coal and ashes, and steam piping. Mr. Moulthrop said that economizers were of great interest, but without a doubt the most important thing to consider are the difficulties in the arrangement of the economizer, the characteristics of various types of automatic control for coal and ashes, and steam piping. Mr. Moulthrop said that economizers were of great interest, but without a doubt the most important thing to consider is the arrangement of the economizer.

The moving pictures taken of the meeting will be shown for the benefit of the members, especially those who are interested in the subject. The meeting was well attended and everyone appeared interested in the subject.

Some of the pictures taken were of the assembly of the economizer, the characteristics of various types of automatic control for coal and ashes, and steam piping. Mr. Moulthrop said that economizers were of great interest, but without a doubt the most important thing to consider is the arrangement of the economizer.

The South Armory was furnished by Mrs. Woodbridge’s Orchestra.

N. E. INTERCOLLEGATES WILL BE IN STADIUM.

Major Briggs and J. M. White, Jr., Appointed Managers of the Meet.

Because of difficulties in making suitable arrangements with the Upham Board of Trade, the New England and track and field championships will be held at the Harvard Stadium.

At the meeting of the Executive Committee, held some time ago in Boston, it was decided to hold the meet in Springfield, at Punt Field, the usual place, providing the object of raising the field was not too great. This decision, however, could not be reached from that of previous years, so the committee accepted the offer of the use of the Stadium, which Harvard made to it.

The committee also named Major F. H. Briggs as manager of the meet, and Juniper James W. Rollins, one of the Tech track team, as undermanager. The jury will be entirely in charge of these men, and both will strive to make it a success.

This decision to hold the meet in the Stadium will greatly add Tech’s honor of winning, as the management will be able to send more men than if it were at Springfield. Dartmouth always has a large number of men, but in this way pick up many points. In addition, the teams will not have to undergo a railway journey, and will be fresh for their events.

BOWLING LEAGUE.

The standing in the Technology Bowling League is as follows: Wom. Lost. Pinfall.

Pall Mall 23 6 8,8 75

Falmouth 29 10 10,5 96

Fatinaus 19 12 6,5 78

Luxurys 4 1 1,4 44

Mouzeu 10 10 1,0 42

Misica 14 12 8,5 93
