TECH SHOW DINNER SATURDAY EVENING

All Men Connected With This Year's Show to Be Guests of Management.

Saturday night, at 7 o'clock, the Show will hold its annual dinner in the Union. Only those men, including the orchestra, connected with this year's Show, are invited by the management to attend. There will be plenty of "eas" and "smiles" and "drinks," all of which will be free of charge to the men present, and the managers of the different departments will give informal speeches at the evening's show, telling approximately how successful that "Money in Sight" has been.

Mr. Peter H. Thompson, III, and C. H. Eldred will have some interesting talks to present at the meeting of the Boston Section of the American Engineering Society, and the Boston Society of Civil Engineers, which will be held in the Lowell Building. The subject for conversation is "The Delivery of Freight and Handling of Freight at the Boston Electric Terminals." The Edison Electric Illuminating Company furnished a large part of the funds, and the installation was of a very thorough nature, covering not only the question of the vehicular themselves, but also the allied problems of street congestion and paving. All the men interested are cordially invited.

CERCLE FRANCAIS

Owing to the small attendance, the regular Cercle French program was adjourned to a later date, which will be announced when it will be possible to attend. At the later meeting, the speakers will be born on the French army. President Louis will have to write to the various members as to what day would be most desirable for meetings.
