INSTITUTE COMMITTEE WILL MEET FRIDAY

Proposed Changes in Constitution to be Discussed at Meeting.

A regular meeting of the Institute Committee will be held Friday afternoon, April 23, at 4:15, in S Eng C. In view of the important changes in the constitution that is to be brought before this meeting, a full attendance is greatly desired. All members are requested, either to be present in person or to vote by proxy through their representatives.

The business that is to be brought before the meeting, as outlined by the Institute Committee is as follows:

1. Report of the committee on the Constitution and By-laws.
2. The proposed changes to the constitution as it was accepted by the student body, will be considered, especially as regards the representation of the activities. Members of activities whose right to representation is questioned are cordially invited to present their side of the question.
3. Discussion and possible action aiming towards a more efficient Tech.

The cooperative sales matter has been referred to in recent communications in THE TECH and in one which should be of interest to the whole student body. This is the Harvard Cooperative Society lumber, which has been thoroughly studied and may be taken as a model for the Tech society.

Attention at meetings. This is another question which has had considerable publicity through the columns of THE TECH, and has been the cause of some rather sarcastic comment.

The Treasurer's report and the report from the Tech Show Authority Council will constitute the remainder of the business. Anyone who desires to express his views on any of the above subjects is requested to attend.

THURSDAY, APRIL 21, 1911

We had a little story to say yesterday's issue about the support of the various track teams, which will represent their classes in the meet on Saturday next. Now just a word to the men in the classes, who for one reason or another have not been able to train this year, but who have ability in track athletics. There are a good many of these men who are unwilling to cater. They feel naturally enough, that to enter the meet on Saturday without having put in any work would be unfair to themselves. They would not do their best and they would be competing unfairly. This is all true enough, but the class that has a large number of entries stands a proportionately good chance of winning, as the third and fourth places are usually given to the team totals. Everyone here realizes that the men here are to become athletes, and instead of having a critical point of view, the students look on a man with a conception who does not shine in his event but comes out and does his best. Sacrifice a bit of personal pride and work for your class. We speak of this because it has come to our ears that several men, belonging to the Sophomore class, have refused to enter, because they are afraid they won't show up well. The meet was not arranged for individuals to show brilliance; it is to determine which class deserves the track supremacy. Consider this and you are sure to win your mind whether to enter or not.

T. C. A. PEACE TALK.
