THE TECH

THE TECH SHOW.

The dinner at the Union Saturday night, March 29th, was the official close of this year's Tech Show. The committee of the Show, having received a number of reports for the past year, made the following announcement:

"During the latter part of the month of March, the officers of the Student Body, in conjunction with the Alumni Association, held their annual meeting for the election of new officers. The following officers were elected:

President: E. I. Williams, '09
Vice-President: E. G. Gates, '10
Secretary: B. A. A. Cook, '11
Treasurer: S. H. Taylor, '14

The new management is expected to take advantage of this opportunity on both days and the trips are bound to be of great value to all attending. All men who intend to inspect the Exchange are to meet at 2 o'clock each day in the Student Body Room.

Opportunity for New Men.

The question of a New York trip, (Continued from Page 1, Col. 1.)

Mr. J. R. Williams, '90, is exhibiting his drawings made while studying under his traveling instructor. The men covered about five miles although they were handicapped by a heavy fog. The makeup of the first boat was as follows: Horbach, Cox; Berkowitz, Stroke; Affel, 1; Keating, 2; Kleinert, 3; Marcy, bow. Coach Stevens has selected the first and second 'Varsity crews. These selections, however, are only temporary so there is still a good opportunity for new candidates. The coach wishes all men who have reported for this year to report this afternoon at the Field House, regardless of weather conditions.

DRAWINGS EXHIBITED.

FINAL T. C. A. TALK.

(Continued from Page 1, Col. 1.)

and it will mark the climax of the series of T. C. A. talks originated by Mr. L. E. Talbot, the present secretary of the Association. Mr. Talbot came to the Institute to assume the position of secretary a year ago. At that time T. C. A. talks were unknown to the student body, and the present high standard of these talks and their importance in the student life is the result of the efforts and efficiency of the Association's secretary. Mr. Talbot concludes his duties at the close of this school year, and in his position, the Executive Officers of the T. C. A. hope that a large number of men will be on hand next Thursday noon to give their support to the last of the series of talks originated by their Secretary.

And now the numbers of the Show can also sleep.

Big eats for the M. E. Society Wednesday night.
