FINAL INSTITUTE COMMITTEE MEETING

Consideration of Co-operative Society and Show Reports

Mark Close of Year.

Friday, at 4:15, the present Institute Committee will hold its final meeting for this year, beginning at a close on one of the most eventful years in the history of the committee. The Institute Committee has been put on a firm basis, has been given a constitutional right to exist, and to exercise authority over the various activities, and at the same time it has impressed on the student body the need for added idea of such, and has thus gained the confidence of the larger and supreme body.

The business to be come before the final meeting will be the report of the committee to investigate the influence and scope of the present Cooperative Society. This question has been very much a topic of late, and radical changes are looked for in the near future. The report of the Tech Show Advisory Council and of the Tech Show Treasurer will be received, and the ratification of the membership of the chairman of the Union Committee, as recommended by the Executive Committee, will be considered. All men interested in any of these questions are welcome to attend.

M. E. SOCIETY MEETING.

Mr. Perry of General Electric Company to Speak.

The Mechanical Engineering Society will hold a meeting in Room 11, Engineering, Friday, at 4:45 tomorrow. Mr. Frank Perry, an Institute Alumni, of the class of '98, will speak on the subject of "Individual Electrical Driving." Mr. Perry is now connected with the Edison Steam Power Company of the Miller Power Department. He has designed and equipped several plants, and has made a careful and scientific study of the application of separate motors to the driving of machinery, especially in the textile industry. He will show how the method of power transmission by this means displaced several millions of horsepower and has made a great and scientific study of the application of separate motors to the driving of machinery, especially in the textile industry. He will show how the method of power transmission by this means displaced several millions of horsepower and has made a careful and scientific study of the application of separate motors to the driving of machinery, especially in the textile industry. He will show how the method of power transmission by this means displaced several millions of horsepower and has made a careful and scientific study of the application of separate motors to the driving of machinery, especially in the textile industry.

FINANCE COMMITTEE.

Last Meeting to Be Held Today at Technology Club.

Today, at 6:30 P. M., the Finance Committee will hold its final meeting for the year. Unlike previous meet- ings, where members were held separately, the treasurers are to gather as guests of "Pat" Coburn for a dinner at the Training Club. This was the last meeting of the committee, and the members are invited to bring with them a graph of their work during the year, and to have their plots made on Physical Laboratory plotting paper. These reports should include all details of their work, particularly the time taken to collect data.

MECHANICS ARTS DINNER

Dean Burton and Major Cole to Speak.

On Wednesday evening the Mechanics Arts High School Club will hold its annual banquet in the small dining room of the Harvard Club. The address will be made by the Major Cole will be the speakers this year. Several of the Institute A. H. S. H. S. I. students have been in- cluded to attend, as special guests of the school. Tickets for the banquet, which the committee hopes will be on hand this week, may be purchased from the Institute A. H. S. H. S. I. students. Provisional schedules for the final meeting appeared Tuesday in some of the drawing rooms.

INTERCLASS BOAT RACES TO BE HELD ON CHARLES

Five Four-Oared Shells Entered in Meetings; Fifty Men Out For Crew.

On Saturday, May 17th, the crew will hold the first interclass boat race ever held on the Charles. The race will be called at 3:30, and will be run from the Cottage Farm Bridge to the Harvard Bridge, a distance of one mile. The competition will be for the regular Intercollegiate course. The freshmen have entered three boats, the Sophomores and Juniors each. The following freshmen are out for positions on the crew: Wellington, Chapman, Harper, and (for) inferior. Wells, Linder, Brown, for stroke and Ayer, Poyntz, Lucas and Hor- howski, for coxswain. The Sophomores out are: Anderson, coxswain; Mumford, stroke; Sifton (3); Clement (2), and Landon, bow. The Juniors have no coxswain and there is an opportunity for a new man to come out and make good. The men out for the other positions in the Junior boat are: Taft (3), and Dear, bow.

The desire to win and the management of the men to report regularly for the work in the four-oared shells as shills and the points given at any time and regularity will count in the picking of the crews. The four-oared shells will probably be entered in races held in the Basin in the near future. Most of the men will be in the vicinity of Boston at that time.

Practice will be held at the B. A. bateauhouse at 2:15 and 4:15.

CIVIL ENGINEERS TO DINE TONIGHT

Splendid List of Speakers Arranged For Annual Dinner.

Tight, at 5:30, the Civil Engineers Society will hold its annual banquet at the Boston City Club, 2 Beacon street. Judging from the list of speakers the dinner is expected to be a great success. Professor George P. Swain, formerly of the Institute of Technology at Harvard, and recently elected President of the American Society of Civil Engineers, has conveed to present and to address the society. James P. Miroon, secre- tary of the Institute Corporation, will also speak to the men. Mr. Rollins is to be the speaker of the evening next Tuesday at the Student meeting of the Boston Society of Civil Engineers, and of the Alumni Association, will also speak to the men. The dinner will also be the speaker of the evening next Tuesday at the Student meeting of the Boston Society of Civil Engineers, and of the Alumni Association, will also speak to the men.

In addition to these, Mr. Frederic H. Pay, president of the Boston Society and of the Alumni Association, will address the society on "Legal Engineering." Mr. Boodell will speak for the department.

The results of the recent elections of officers for the coming year will be announced at this time. It is hoped that a large number of the men will avail themselves of this unusual opportunity for hearing such speakers. Tickets may be obtained until tomorrow from the different officers. MEETING OF NAVALS.

Date of Annual Banquet to Be Decided on Today.

This afternoon, at 4 o'clock, the Naval Architectural Society will hold an important meeting in 33 Eng. C. At the last meeting the annual banquet was discussed, and as the school year is fast drawing to a close, the members decided to have the final meeting at some well known Boston hotel. Westerlind was appointed the committee of one to get the prices of the hotels that the treasurer thought and to report to this coming meeting. The matter of seating for the banquet was also discussed and the final plans on this matter will be settled for this afternoon.

The officers of the society hope that all the members will be able to be present Monday evening and that they will exercise their right of choice in picking the most suitable hotel for the final banquet. All members attend- the meeting this afternoon with an interesting talk on "Chinese Sailing Craft" by H. K. Chwe.
