WRESTLING TEAM AT GYM FOR PRACTICE

All But One of Last Year's Team Return—Meet With Yale A Possibility.

In an effort to make an even better record than that made last year the wrestling team has already begun work, and the men at the gym have been busy from four to eight o'clock. A coach has not yet been secured, but Mr. Grunew, Captain Kelley, Manager Smythe-Martin and the other members of last year's team will aid any new men who come out.

All of last year's team have returned to the Institute with the exception of Saier. The splendid record made last year should be improved upon with the added year's experience and the aid of new material from the incoming class. All men who intend to come out for the team are urged to join the wrestling for gym work after that are requested to start work now. Manager Kelley this season is busy arranging a schedule and now that the team is recognized they are to be treated as upper-class men and are expected to turn out for every meet.

Mail Accumulation

A large amount of mail matter has accumulated at the Cage in the Union during the last few days and has caused the number of letters to receive attention. The home or city address are not definitely known until some time after registration. The mail matters are not lost, but the name of the addressee may be the last to be called at the Cage, and the mail would be saved if the men would come here.

EPISCOPAL RECEPTION

The Technology Chapter of the Brotherhood of St. Andrew cordially invites all Episcopalians entering Tech to attend the annual reception, to be held at Trinity House, 22 St. James avenue, on Thursday, October 2, at 7:45 P. M.

The Rev. Alexander Mant, rector of Trinity Church, and the Rev. Edwin H. Van Zellar will be present to welcome the new men. All Tech men are welcome and they may be assured of a pleasant evening.

FRESHERN ADVISORS TO HAVE DINNER

Report to Be Made—Dean to Speak

This evening at 6 o'clock, all the men who have been appointed Freshmen advisors and who have helped the incoming men during registration and in other ways, will meet in the Union Dining Room. After the dinner, which will be regular, 25-cent one, Dean Burton will address the group. As the report on the last year's work is not yet finished, the report on the Freshmen advisors and those who are doing the work is not yet finished. The fact that the work this year has been a success has already been shown by the splendid and thorough work that the Freshmen advisors have done, and will be further evidenced by the reports which the men will make this evening.

This evening's gathering of the advisors will be primarily to simplify matters in the way of making a complete and formal report on the work done. Special blanks will be furnished, and those will be filled out with the required information. By these means, it is hoped to make the work as it is expected to have it come out.

Dean Burton will explain the planned reports to have the upper-class men in touch with the Freshmen during the school year. The Dean will go into detail and outline the work as it is expected to have it come out.

The meeting and dinner will be held in the lower dining room of the Union, and all business will be transacted as quickly as possible, as it is planned to meet at the earliest hour and leave the Union before 8 o'clock in the latest. In this way, the meeting will not interfere with any plans already made for those who have not returned to school yet.

The Technology Christian Association made a very excellent and encouraging start for the ensuing year in an Institute Coinmittee and Finance Committee Meeting.

The Officers of the Technology Christian Association have to thank the students for support and cooperation. The officers of the T. C. A. request that any new man who has not received a handbook, call at the office (adjacent to the Freshmen advisors in Room 134), and receive one without charge. The Freshmen advisors will be glad to help in any way they can.

FRESHERN HOLD SUCCESSFUL MEETING

P. E. Hublund of Phillips Exeter Chosen Temporary Chairman.

The Freshmen meeting held in Hultington Hall yesterday at one o'clock was attended by a large number of enthusiastic Freshmen, as well as many interested upperclassmen. President MeWolrich of the Juniors opened the meeting with a few remarks and then introduced Dean Burton. The Dean spoke strongly in favor of general participation in Field Day and prised the men for their willingness to make this sensible substitute for the childlike frankness indulged in by some colleges. He also spoke of the fact that this university is a professional school and that therefore the men should have more of a feeling of responsibility than in the regular non-professional type of college.

Mr. McVeigh then spoke on the need of a goodly amount of class spirit, and the benefits of good cheering. He said how the new class, ranked in this respect the regular Tech cheers were given and given with such strength that McVeigh said that he had no doubt that the new class would live up to the traditions of the old, and that everybody who came to the Institute with the exception of the upper class would be glad to help in any way they can.

Manager Atkins of the football team wants all football candidates to meet in Hultington Hall at 4 o'clock today. Coach O'Brien will be on hand to address the men and Captain Scully of the Junior and Manager Atkins will both have something of interest to say.

Track practice for the relay team will take place at the field regularly. To reach Tech Field take the Brookline line of the B. & M. and go to the Cambridge Street. Both Coach Kavanagh and Manager Friend will be on hand every afternoon and will be glad to help in any way they can.

BOAT CLUB MEETING

Next Friday there will be a meeting of the Boat Club in the Union at 4:15. Besides being the occasion of the election of the officers for the coming year this will be an excellent opportunity for those interested in rowing to get together. The Freshmen are especially urged to attend this meeting and get an idea of the place. The Boat Club has forced itself from an almost unknown position fairly to the fore of our sports and the prospects are bright for a still more successful season this year.

CALENDAR

Wednesday, October 1, 1913.
