PHEILPS CALLED TO GOVERNMENT SERVICE

Institute Professor Accepts an Important Position at Washington.

The resignation of Mr. Earle B. Phelps, Assistant Professor of Research in Chemical Biology at the Institute, has recently been submitted. This is in effect a call from Washington, where he will take the important position of sanitary engineer for the U. S. Public Health Service. Professor Phelps is well qualified for his new position, and the call is a gratifying and well-deserved recognition of his success in the field to which he has devoted the larger part of his career.

Mr. Phelps was graduated from the Institute with the class of 1899. Immediately after graduation he entered the service of the Massachusetts State Board of Health, and was called to Technology as chemist and bacteriologist of the Sanitary Research Laboratory. During the following eight years he was in charge of researches into the purification of sewage. The results of these researches led to the development of the modern process of purification of water supplies.

In connection with his work in sewage purification, Mr. Phelps became interested in the purification of shellfish waters. His success in this line is shown by the fact that he has been retained by many oyster growers in different parts of the country as consulting sanitary engineer.

Professor Phelps has been employed in many parts of the country in a private capacity, in connection with sewage problems. He has supervised the construction of many municipal and private sewage disposal plants, and has also been retained as consulting sanitary engineer for several state boards and municipalities.

Professor Phelps' resignation was handed in after the last meeting of the Corporation, his successor has not yet been appointed. It is understood, however, that Robert S. Weston, M. I. T., 94, is recommended by the Biology Department for the vacant position.

T. C. A. DINNER
(Continued from page 1.)
In the afternoons, and will be glad to hear from any of the new men. Later these two officers will have regular hours daily.

The T. C. A. wishes to announce that the first Bible Discussion Group meeting will be held in the office in Reg. B, at 1:30 next Monday. Full information regarding these discussion group meetings can be obtained from the Secretary, or from the circular cards found in the T. C. A. handbook. Other groups will be arranged according to the number of men who come out and show any interest in this kind of work. The books used in this work is not found in the curriculum, and it is not necessary to buy one in taking the Bible Study course offered by the T. C. A.

Next Friday evening, the annual T. C. A. reception to the new men will take place in the Union. The various committees of the association are already making extensive preparations for these receptions. Refreshments, entertainments and speeches will be on hand to give the Freshmen a real reception. Dean Burton will be one of the principal speakers.

Subscription books for TECH are now on sale.

College Men
Will Make No Mistake
In Depending Upon
NEW ENGLAND'S
GREATEST STORE

Here one may choose from unequalled assortments of

Clothing ——— Furnishings
Furniture ——— Rugs
Pictures ——— Artwares
Trunks and Luggage
Sporting Goods

and the many other things so frequently needed during college days.

Best of all, selection here is never from commonplace stocks but from the best that Europe and America can produce.
