CHEMISTS MEET TODAY

Important Meeting Called To Adopt New Constitution.

The Chemical Society will hold an important business meeting, the first this year, this afternoon at 5 o'clock in 23 Walker. The chief object of this meeting is the adoption of a new constitution. One of the main features of the new constitution will be the increase in the Society dues. Formerly the yearly assessment has been only 50 cents, which was not enough to sustain the organization as well as the officers desired. With the dues raised to $1.00, it is very probable that the Society will become the foremost in the Institute, as well as the largest. There will be also other changes made, which will greatly facilitate the carrying on of business.

Nominations for a new member of the Program Committee, to be elected by the Senior class, must be at the Cage before 4 o'clock.

CREW MEETING

A meeting for all those interested in crew will be held in the Union this afternoon at 4 o'clock. Everyone that is at all interested in the sport is invited to attend and learn about the future crew. An election of officers for the coming year will probably be held at the meeting. The prime object of the meeting will be to discuss the fall rowing and the plans for the spring crew, as well as to get a line on the new material now in the Institute.
