TECHNICAL UNION MEETS TO ELECT OFFICERS

Hurlbut, '14, Elected President With Carr, '10, as Vice-President.

Officers of the Tennis Club for the year 1912-1913 were elected yesterday at the noon meeting in 22 Rogers.

After Kenneth W. Roy, '12, vice-president of last year's club acted as temporary chairman, pleading the election of Rogers for President, Frederick E. Hurlbut, '14, was chosen president; J. Blanchard Carr, '10, vice-president; and C. A. Noble, '14, secretary-treasurer.

Entries were received from the men present for the fall tournament, which is to start next week. It has been difficult in previous years to have all the matches played in the fall, and in order to insure the finish of the registration and entering the closing of the entries has been set early. Practically all of the two dozen entries present at the meeting are signed up, and with the men who may enter in the future, it is expected that the fall honors are probable. Games may be played at Jarvis Field, or any place that is convenient. The courts at Tech Field Brooklyn are in very poor shape and probably cannot be used.

Entries may be left at the "Cage" up to Monday afternoon of 6 o'clock, addressed to either President Hurlbut or to the Tennis Committee.

The fee for the singles will be fifty cents and for the doubles seventy-five cents for the team. It is earnestly requested that all men who are interested watch THE TECH and the bulletin boards in the corridors of Rogers for the announcement of the drawings and other matters regarding the tournament.

T. C. A. RECEPTION

(Continued from Page 2)

markable how the troubles and difficulties of registration and entering the Institute had been relieved in recent years. This, he said, was due entirely to the work of the T. C. A. through which Association the plan was devised.

As an Association and student body, the data thought the T. C. A. a great factor in developing loyalty, and in destroying that prevalent desire for self-advertisement, creating loyalty, respect and duty to something outside of the man himself. Dean Burton stated that the Institute was one of a small number of colleges which were devoted to any religious exercise, and in whose curriculum religion had no place. To Technology, he said, the religious side of college life was developed involuntarily and, developed, in fact, by the Christian Association here at the Institute. In closing, Dean Burton expressed the hope that the T. C. A. might flourish and grow, and become a vital part of Institute life.

President Langley then gave the floor to A. C. Dorrance '14. "Chief Engineer of the Technique "14." Dorrance gave the freshmen an excellent idea of the various activities at the "State. He began with THE TECH, and he told in some detail of the Institute's daily paper. He spoke of the valuable experience that the men there got, not only on the field, but also in the news department of THE TECH. As a close rival to THE TECH, Dorrance mentioned Tech Show, and he told how the many positions in the Show were made by competition; he told of the trips the Show has made, and of the great opportunities open to progressive men. Last year's Show, he said, handled about $1,000.

Dorrance took up Technique '14. He spoke of the various improvements made each year in the year book, and he told the freshmen of the Technique Rush. To those musically inclined, Dorrance said that the musical clubs offered plenty of opportunities and he mentioned the different concerts and trips that these clubs have. The professional societies at the Institute were also given proper attention, and he told the freshmen, said Dorrance, were not eligible to membership.

As an example of the doings of the T. C. A. the speaker referred to the success of last evening's gathering. The best hygienic and healthful conditions could not be laid claim to. I be Tech was made by the students and gave the men an excellent idea of what they were like.

"Goshing '14" was then introduced, and he spoke very interestingly about Institute athletics, and urged the men to go out for athletics, and said that each man owed it to his class to go out to make the coming Field Day a success. He presented athletics at Technolgy in a very coarse manner, and spoke of the strong place M. I. T. holds in the ranks of colleges in the country. He told of the progress of the wrestling team has made, and of the victories M. I. T. has won in track and field events, and urged the men to give athletics their full support.

Howell Taylor '15 then rendered several vocal solos. His singing was well received and much enjoyed.

General Secretary L. R. Talbot then spoke a few words, expressing his appreciation and pleasure at the fact that the T. C. A. had been given its right as representative of adult students. He asked the men for their serious consideration of T. C. A. as their chosen student activity.

He spoke of the great need of men, saying that only a few were doing all the work and that there were unlimited chances in the T. C. A. Secretary Talbot then introduced Mr. F. H. Blake, his new assistant. Mr. Blair said that he found great pleasure in being present at the reception, and expressed his desire to become acquainted with Tech men more closely.

Ice cream and cake were served after the addresses, and after the singing of the Student Song, the men adjourned. The various Tech songs were sung during the evening.

The men out on the track Thursday experienced some difficulty getting around the quarter without getting into several pools of water.
