A meeting of the Governing Board of the Class of 1914 was held yesterday afternoon in Room 27, Rogers. The principal business of the meeting was the arrangement for the election of the class officers for the ensuing year. An Election Committee was appointed, consisting of E. P. Alexander, D. R. Sutherland, and E. M. Nowlin to have charge of the election.

The treasurer's report was read and submitted to the Finance Committee for further action.

This was the final meeting of the present 1914 officers. The new officers will be elected at the annual meeting on Oct. 14th, the polls closing at 5 p.m. Election ballots will be issued out on Oct. 11th. The Committee desire at least three nominations for each office. Election ballots will be on hand Oct. 14th, the polls closing Oct. 21st.

BIOLOGICAL TRIP
Men To Meet At New Bedford Thursday

The classes in biology and public health will have the last inspection trip of the year next Thursday, when Professor Sedgwick will take the members to the meeting of the Massachusetts Association of Boards of Health at New Bedford. The main feature of the meeting will be the inspection of the new inspection sewage system of the city and means for the disposal of the sewage. New Bedford has enjoyed the distinction of having so lawdly a contaminated harbor that the State Board of Health has prohibited the taking of shell fish from its waters for food, save under very stringent restrictions. The new system, which is to treat the sewage and convey it to strong outfall currents is expected to remedy all the difficulties. It will be a great object lesson for the students.

LARRY HARR MARRIED

Mr. Larry C. Harr, one of the prominent members of the Class of 1913, was married on August 9th to Miss Bertha A. Halley of Dayton, Ohio, the home town of the couple. The young couple are living in St. Louis, where Harr is in charge of the Bumberry & Bag Co. Harr, who is so well known by many of the men at the Institute, was president of the Bump & Bag Co. in 1913, and was the assistant treasurer of last year's Tech Show. Harr graduated in Course XI.

THE TECH will be glad to meet some more men any time that they will come around.

T. C. A. talks will begin next Thursday.

WEATHER

For Boston and vicinity: Rain, with light winds.

DRAWINGS POSTED FOR TENNIS TOURNAMENT

Large List of Entries in Singles—Seven Days To Play First Two Rounds.

The entries for the annual fall tennis tournament closed last evening with twenty-six entries in the singles and seven teams in the doubles. The drawings were made immediately and are posted on the bulletin board of the Athletic Association.

This tournament is for the technology championship, and the winner in singles and winning team in doubles are awarded the ITF. The result of the play will also have some bearing on the selection of the team next spring. The entry fees must be paid before matches are played. They may be left at the Cage for L. F. Hardwick or C. W. Blakely.

Under classmen will be expected to look up upper classmen. Men who did not designate class have been marked not in singles. Each man in singles and each team in doubles will be expected to bring three new balls for each match. The winner or winning team will keep the three unused balls for the next tournament.

T. C. A. will meet at the meeting held yesterday at the Cage for the nomination of candidates now out are Wood, Harrington, New, and possibly with Wattham High. A large crowd will probably witness Souveville game, as that will be the first opportunity to get a line on the freshmen in action.

Among those who look good in the bunch of candidates now out are Wood, Harrington, New, and possibly with Wattham High. A large crowd will probably witness Souveville game, as that will be the first opportunity to get a line on the freshmen in action.

FIRST 1917 FOOTBALL GAME NEXT MONDAY

The 1917 Football Team went through a stiff practice yesterday in preparation for their first game which will take place on the Columbus Day holiday, Oct. 13, with Souveville as opponent. The bench is working very hard and showing all the spirit and enthusiasm which they showed this afternoon. The new building over in Broadway will be open for the first time to the public on the Columbus Day race.

The plays were made immediately and are posted on the bulletin board of the Athletic Association.

NEW TUG-OF-WAR ROPE

1916 and 1917 Teams Will Now Practice Every Night.

Until today the Freshman and Sophomore tug-of-war teams have been working with a big handicap, for there was only one rope to be had and no practice could be held only on alternate afternoons by each team. A new rope has been secured, so that today both teams will meet at the gym for practice at 4 o'clock.

Manager Sully of the 1916 team is not at all satisfied with the way the men are turning out for the team and hopes that there will be more spirit shown in the future.

The men for the team are picked not by their size but by the spirit and enthusiasm which they show at the practice. There are still many of last year's men who have not come out yet for the team, and Sully wants all men to come together as many new men as possible at the gym this afternoon.

TECH CANDIDATES

Eleven Men Answer Call—Editorial Contest Announced Soon.

Eleven new candidates for the news department of THE TECH were present at the meeting held yesterday at the lower office in the Union. They were C. A. Abels, C. M. Angell, H. M. A. Andrews, M. J. A. Albers, H. D. Mandelmen, H. E. Lobdell, A. Pierce, C. H. Repetti, R. Stevens and R. B. Buck.

Among those who look good in the bunch of candidates now out are Wood, Harrington, New, and possibly with Wattham High. A large crowd will probably witness Souveville game, as that will be the first opportunity to get a line on the freshmen in action.
